Factor / Parameter	usd V/S EARTHLINGS, 9-9-2022.	
	usd	EARTHLING
Definition	Domestic currency of one country.	Not a domestic currency of any one single country.
	Rouge currency for last 245 years.	Will go live soon by introduction and voting at WIPO.
	Sponsored illegitimate activity across 191 world countries.	Cannot be used to sponsor illegitimate work in any foreign country.
	Not a world neutral currency.	Neutral world currency.
Manipulation	Artificially manipulated and kept strong.	Will hold its value for a period of 10 years before it would be either strengthened or weakened for the benefit of the world economy, and will hold the new reset value for another period of 10 years.
	Forced on world countries as a world standard currency to cheat them.	191 countries will embrace the Earthlings currency with 100% confidence.
	Monopoly of currency made only usa rich.	191 countries can set goals and economic objectives for their own countries and can get rich.
	Monopoly of currency resulted in 191 slave countries.	191 countries are NOT slaves anymore.
World economy	Was manipulated negatively for the last 245 years.	Cannot be manipulated anymore. World economy will see positive growth by the contributions coming from economic growth of 191 world countries.
	goldman sachs was set-up to create 191 slave countries in the world.	goldman sachs cannot influence Earthlings.
	goldman sachs built the planned, and methodically executed monopoly of usd.	Earthlings will end the monopoly of usd.
	For the full history of 245 years, usd was kept artificially strong against the world currencies by goldman sachs.	Earthlings will hold its value without changing against world currencies for a period of 10 years at a time.
	Due to the above, 191 world countries were cheated for the prolonged period of 245 years.	usa cannot cheat the 191 world countries anymore. No one can cheat the 191 world countries anymore.
Commodities	Import-export traders were cheated by manipulated currency usd by incorrectly pricing world commodities.	When world commodities are priced in Earthlings, no import-export trader will be cheated.
	Importers paid more than what they should have for their imports from across the world.	Importers will pay the right price / value for imports, when imports are paid for in Earthlings.
	Trade by governments has also been impacted by the manipulated usd.	Trade will be in Earthlings currency which cannot be manipulated by usa.
	All commodity prices have been incorrectly priced and artificially kept high for all 245 years.	Commodities will be correctly priced in Earthlings.
Business Equality	Non-existent and dead under usd monopoly.	Earthlings will deliver business equality.
	It has been dead for 245 years.	Business equality will come alive when Project Earthling© goes live.
	Manipulated usd only proliferated business inequality.	End of all business inequality across the world.
	Business was biased to the likes and dislikes of usa, subject to other bias of racism, religion, language, ethnic origin, skin color, or food habit.	usa can keep their likes, and dislikes to themselves. They cannot deliver alternate business outcomes to the world anymore.
Trade Equality	Non-existent and dead under usd monopoly.	Earthlings will deliver trade equality.
	It has been dead for 245 years.	Trade equality will come alive when Project Earthling© goes live.
	Manipulated usd only proliferated trade inequality.	End of all trade inequality across the world.
	Trade was biased to the likes and dislikes of usa, subject to other bias of racism, religion, language, ethnic origin, skin color, or food habit.	usa can keep their likes, and dislikes to themselves. They cannot deliver alternate trade outcomes to the world anymore.
Economic Equality	Trade and Business inequalities resulted in Economic inequality.	Finally, the world will realize Economic equality across all the world countries.
	Non-existent and dead under usd monopoly.	Economic equality will come alive when Project Earthling© goes live.
	It has been dead for 245 years.	Economic equality will be sustained after Project Earthling© goes live.
	Manipulated usd only proliferated Economic inequality.	usa cannot control the economies of world countries anymore.
	Economic growth was delivered based on likes and dislikes of usa, subject to other bias of racism, religion, language, ethnic origin, skin color, or food habit.	All the poor countries of the world can aspire to get out of their poverty.
	It explains the current day world with so many poor countries, and only a few that are economically well off.	Economic growth opportunities available for all world countries in an equal world. Real competence, and capability will be rewarded.
Slave Trade	If you are not english speaking catholic christian white supremacist, you were forced to become a slave.	No one can force you to become a slave.
	Many poor countries forced to send people as slaves for doing labor work in usa.	usa cannot impose slavery on the world any more.
Economic Slavery	Abuse of all human rights, all ethics, all morals, with no international law in place, forcing questionable demands for paltry pay, rendering most world countries into economic slaves.	End of economic slavery. Human rights, ethics, morals, upcoming international law will be upheld by all the world countries.
Political Slavery	All the 191 world governments were made to go beg with usa for progress and development funds. They were refused for all the racial reasons.	End of political slavery. 191 world country governments need not beg with anyone.
	The world leaders, prime ministers, presidents, kings of 191 countries themselves were rendered slaves in the last 245 years.	World leaders, prime ministers, presidents, kings of 191 countries need not be slaves to anyone anymore.

Given the benefits of Project Earthling© as described in this comparison, all the 191 world countries must expect a thumping majority vote, at World Intellectual Property Organization assembly, in support of the Macro Reform.

Factor / Parameter	usd V/S EARTHLINGS, 9-9-2022.	
	usd	EARTHLING
Financial Slavery	Businesses and corporations of all 191 world countries were rendered slaves to usa.	End of financial slavery. 191 world country businesses and corporations need not report to anyone.
	Thus the ceo, cfo, cto, all executives from companies across 191 world countries were rendered slaves in the last 245 years.	Ceo, cfo, cto, all executives from companies across 191 world countries need not be slaves anymore.
Sex Slavery	Depending on their likes, or dislikes, they forced and imposed sex slavery across many countries of the world.	End of sex slavery in the world.
	It is the monopolized usd that was used to build the payment network to build such a supply chain of sex slaves. All ethics, all morals murdered for paltry pay.	There will be no illegitimate payment network to build any supply chain of sex slaves.
Treasury	While usa has its own treasury, they kept all 191 world countries away from the word 'Treasury', or 'Their own national wealth'.	All world countries can aspire to build their own national wealth, or Treasury.
	Countries that were made to earn wealth in usd were made to re-invest the wealth back in banks of usa because it is usd. Thus no other country has built their own treasury yet.	All world countries will hold their wealth in Earthlings currency in their own country, in their own banks, with full control of the wealth. They can choose to invest Earthlings with GEC for a standard yield, same for all the world countries.
National Wealth	Deprived for 191 world countries.	You can build you own national wealth.
	The only recognized national wealth of last 245 years is that of usa, as they have a treasury built out of unlimited usd printing.	usa can plan to pay their national debt in Earthlings. Liability to be paid to 191 countries for lawsuits filed at World court at Judicial council.
International Law	There has been no definition of International law in the last 245 years.	World law, and world medical law will be defined forming the International law.
	It is non-existent.	
	It has been intentionally kept this way, to build illegitimate money trail into all 191 world countries to sponsor illegal activities and keep them slaves. With no international law, you cannot seek justice either.	Illegitimate money trail dismantled across the world. Justice will be available to the world countries given the clearly defined International law.
un	Artificial un set-up as an eye wash. Entire un, its six organs, its organizations were paid in usd, and rendered useless for 191 world countries. Icj is a useless court, fully in control of usa.	New world order, United Nations Global Governance Model 2020©, fully paid for in Earthlings currency will deliver sustainable and equitable governance to the world countries.
Real Freedom and True Independence	Non-existent for last 245 years, for 191 world countries. 191 countries are only visible on a world map as separate countries, however they are slaves to usa. So, 191 countries are yet to experience real freedom and true independence.	Planet Earth, its 191 world countries will achieve real freedom and true independence when Project Earthling© goes live. You are a free country not just on the world map, however in reality.
Accountability	Not a person, not a country questioned the unlimited printing of usd and its usage by usa for the last 245 years.	Project Earthling© has questioned unlimited printing of usd by usa. And has put an end to it.
	No checks, no balances to be verified for usa or their economy.	usa and their economy will be subjected to checks and balances. Usa and uk will also get 20 year ban from all world organizations and councils so that they can introspect on their own societies and economic situation.
GDP	usa GDP built on unlimited printing of usd.	usa GDP must come to ground reality.
	It has been artificially inflated and bloated by unlimited printing. Their wealth and their GDP has not been accounted for until this date.	usa GDP must be accounted for in Earthlings.
Political Lever	Built on usd monopoly to create 191 political slave countries.	All usa imposed political levers TERMINATED.
Financial Lever	Built on usd monopoly to create 191 financial and business slave countries.	All usa imposed financial levers TERMINATED.
Pharmaceutical Lever	Built on usd monopoly to create 191 medical / chemical / drug / pharmaceutically controlled slave countries.	All usa imposed pharmaceutical levers TERMINATED.
Poison Ivy League Lever	Built on usd monopoly, poison spewing, venom delivering, derailing, destroying advise giving poison ivy league universities of usa, to create 191 slave universities of 191 countries.	All usa imposed poison ivy league levers TERMINATED.
Filmy Lever	Built on usd monopoly to create 191 movie industry slave countries, to get nixon technology into bedrooms, bathrooms, and hunt for the next sex target or slave target, identify lookalikes, and supply to usa.	All usa imposed filmy, movie industry levers TERMINATED.
Pentacage using the above five Levers	The five prong pentacage used for 245 years to create, control, rape, use, abuse, target, torture, 191 world countries and keep them slaves for ever.	The usa designed five prong pentacage has been TERMINATED.

* For reasons known to the world, uk not in country count. 191 countries used across this document.

Given the benefits of Project Earthling© as described in this comparison, all the 191 world countries must expect a thumping majority vote, at World Intellectual Property Organization assembly, in support of the Macro Reform.

PROJECT EARTHLING©. RESET GLOBAL ECONOMICS.

A GLOBAL MACRO ECONOMIC REFORM WHICH DELIVERS TRUE FREEDOM, REAL INDEPENDENCE, TRADE EQUALITY, BUSINESS EQUALITY, AND ECONOMIC EQUALITY TO 192 COUNTRIES IN THE WORLD. IT IS ALSO A GLOBAL BANKING REFORM, THAT SIMPLIFIES INTERNATIONAL BANKING. FURTHER, THE REFORM ENDS ALL FORMS OF SLAVERY IN THE WORLD, BY BRINGING DISTINCTION BETWEEN LOCAL DOMESTIC CURRENCY AND A NEUTRAL INTERNATIONAL CURRENCY.

ALL THE 192 COUNTRIES IN THE DECENTRALIZED WORLD, IN A LEVEL ECONOMIC PLAYING FIELD, CAN BUILD THEIR ECONOMIES INDEPENDENTLY, ACHIEVE PROSPERITY, AND PLAN TO BUILD THEIR OWN NATIONAL TREASURY WEALTH. THE ECONOMIC INDEPENDENCE WITH NO OTHER COUNTRY CONTROLLING YOU WITH A FINANCIAL OR ECONOMIC LEVER IS PRICELESS.

A Macro Economic flaw persisted in the world for 245 years. Usa by building their usd-\$ monopoly has cheated the rest of the world countries and used it as a FINANCIAL LEVER and ECONOMIC LEVER to control, dominate, and render 192 countries as order taking slave countries. This reform should have gone live 250 or 300 years ago. To terminate the persisting Macro Economic anomaly, that is imposing slavery and causing economic losses to 192 countries:

THIS REFORM MUST BE INTRODUCED AT WIPO (WORLD INTELLECTUAL PROPERTY ORGANIZATION) ASSEMBLY AND BE BROUGHT TO DECISIVE VOTING OF ALL 193 COUNTRIES FOR ITS IMPLEMENTATION.

usa cheated all the world countries for 164 to 247 years; by manipulating their currency (usd) and hence the price of commodities imported by countries. This is an ongoing problem, and it must stop. The immediate relief world countries are looking for:

To eliminate the ongoing import bill fraud being committed by usa.

Eliminate the two varying frames of reference. Manipulated \$ value, against the varying commodity price by its own demand and supply.

\$ (usd) must cease to exist as a global trade / transaction and bribing currency. Observe that it is the domestic currency of one country usa.

Introduction of EARTHLINGS as a new international trade, international business, foreign exchange, and national reserve currency is the immediate need of the world countries.

PROJECT EARTHLING© going live will deliver:

REAL Independence to all 192 non-usa countries.

Ends all forms of slavery imposed on 192 non-usa countries.

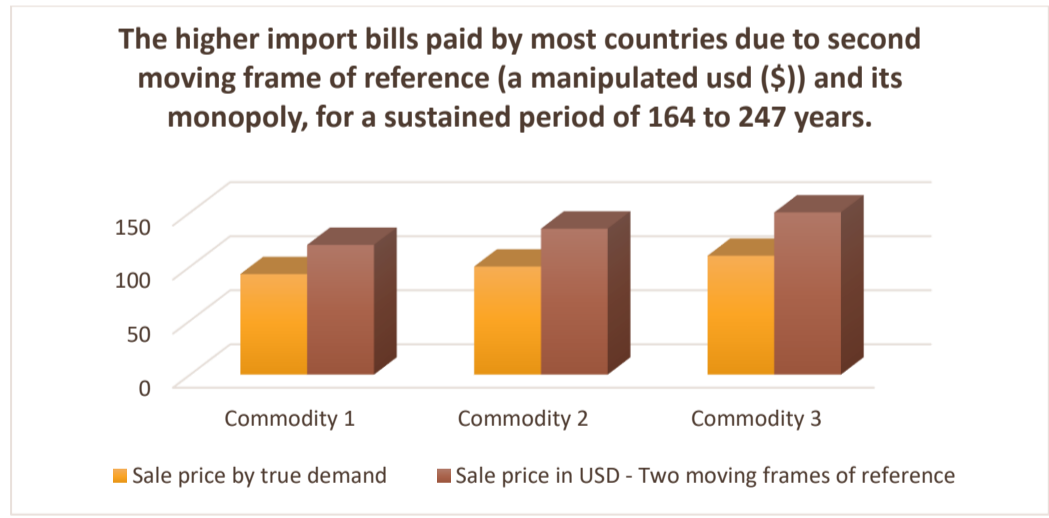

Economic equality and independence to all 192 non-usa countries.

Trade equality and business equality to all 192 non-usa countries.

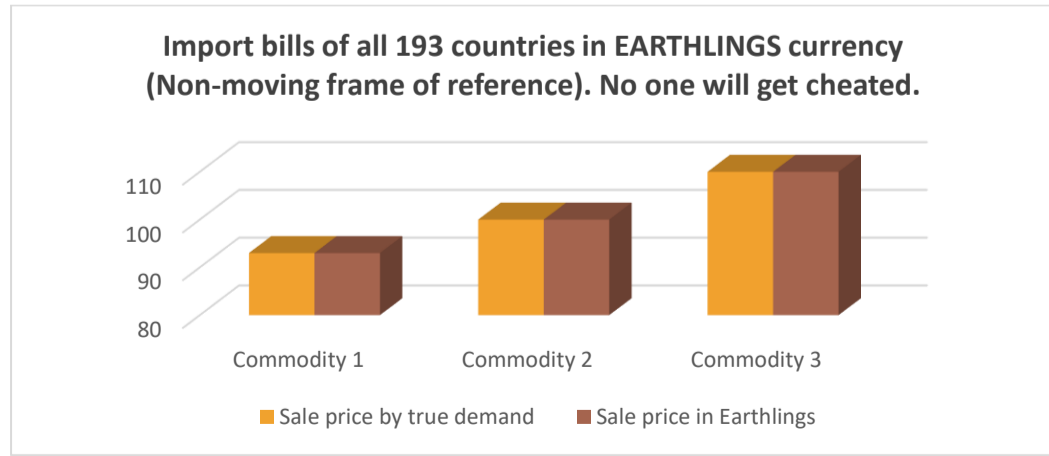

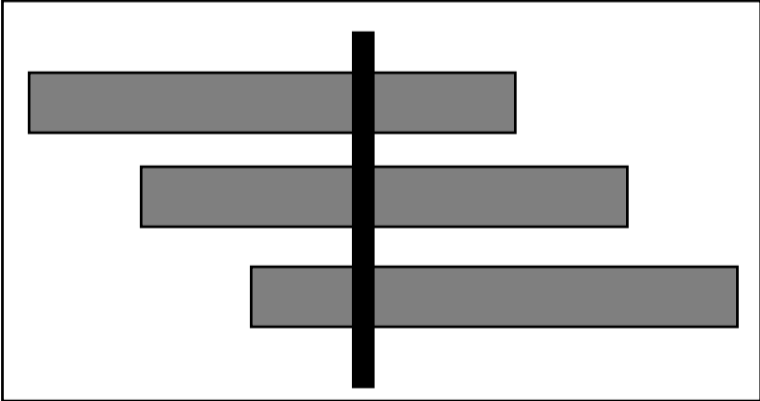

Closure to the ongoing usa import bill fraud imposed on 192 non-usa countries.

Simplifies the international banking system and eliminates multiple currency forex transactions between 192 countries.

It has several other advantages, monetary benefits, non monetary benefits, and features, all of which can be read at my website ProjectEarthling.com, and website webpage: <https://srinivasdevathi.com/project-earthling/>

EARTHLINGS CURRENCY SYMBOL

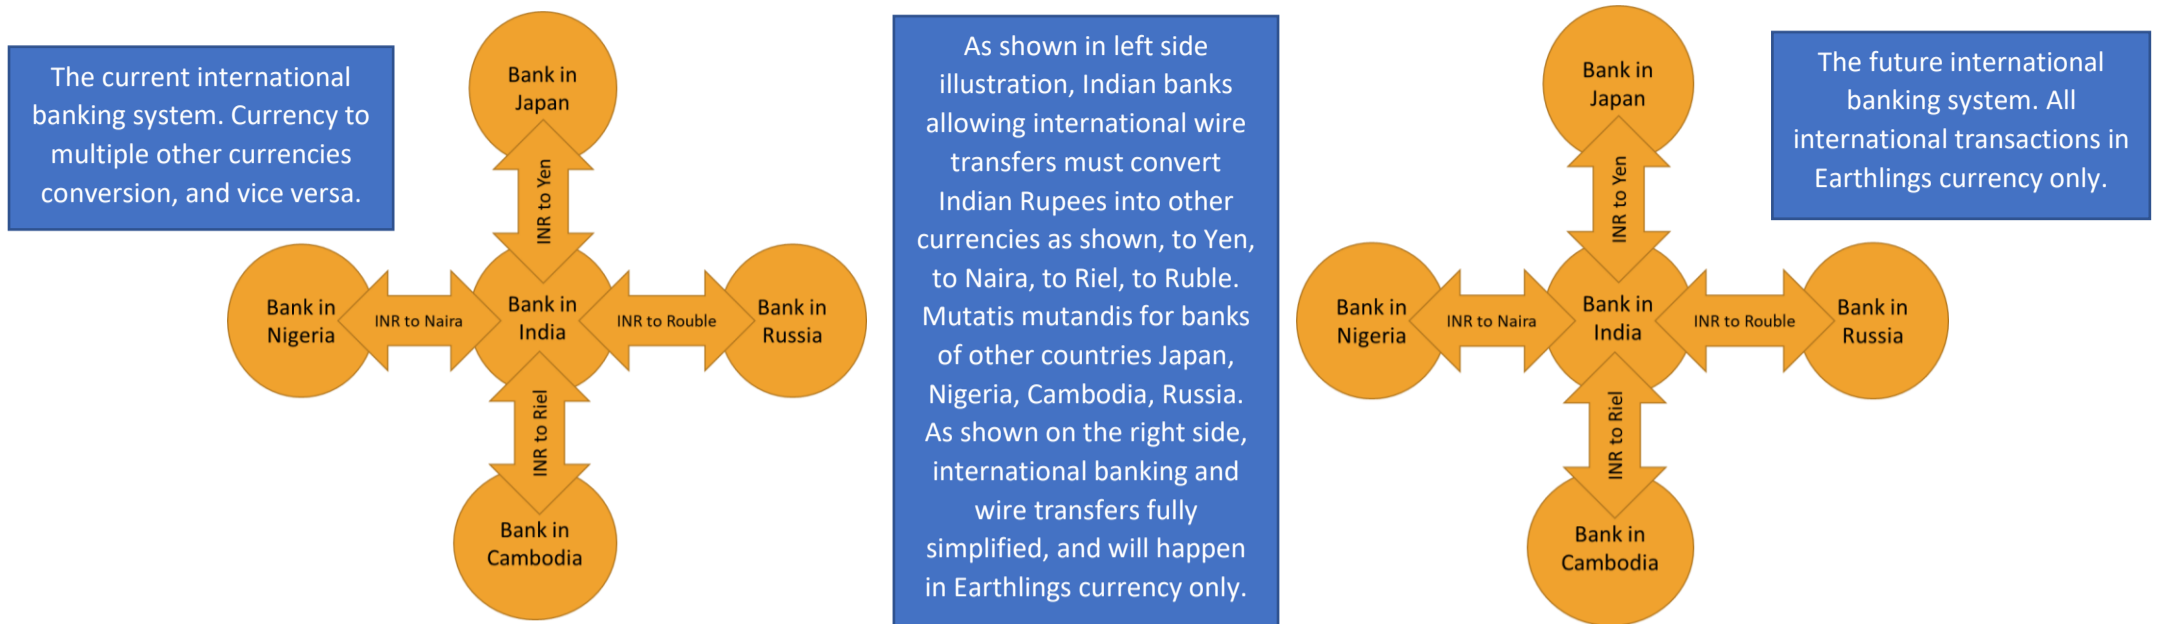

Earthlings currency will hold its value for a period of 10 years, before it is either strengthened or weakened for the benefit of global economy by Global Earthling Council, GEC.

The list of top commodities traded by most world countries: Crude oil, Natural gas, Coffee, Gold, Iron, Silver, Copper, Aluminum, Sugar, Corn, Cotton, Soyabeans. There are also other commodities which have all be incorrectly priced because of the manipulated \$ (usd) over the last 164 to 247 years.

164 years – since Goldman Sachs was formed.

247 years – since usa declared its independence.

INTERNATIONAL BANKING SIMPLIFIED. BANKS DO NOT HAVE TO DO THEIR LOCAL CURRENCY TO MULTIPLE OTHER COUNTRY CURRENCIES CONVERSIONS FOR INTERNATIONAL TRANSACTIONS, OR WIRE TRANSFERS. ALL INTERNATIONAL TRANSACTIONS, AND WIRE TRANSFERS TO ALL COUNTRIES WILL BE DONE IN EARTHLINGS CURRENCY.

Some of the benefits and advantages of PROJECT EARTHLING©.

You can read about all the benefits at my website ProjectEarthling.com, and my website webpage: <https://srinivasdevathi.com/project-earthling/>

1. All global trade commodities will be priced in Earthlings.
2. All export items of all countries will be offered while priced in Earthlings. It will be a single global trade market, for each country's export items.
3. All global fund transfers (international wire transactions) will happen in Earthlings, hence simplifying global trade / business transactions. E.g., Whether you are transferring funds to Europe, China, Japan, or Korea, you always do the international wire transfers in Earthlings, despite their local currency. The recipient Bank upon funds receipt in Earthlings, could either hold them in Earthlings or convert it to their local currency, as per its preference. Global banking is simplified. Many to many currency conversion headaches are removed for Banks.
4. All poor and developing countries benefit significantly from this. Usa and its economy will also be subjected to checks and balances.
5. Each country must have a special 'International trade and Business Bank, ITB Bank' which allows bulk (high value) Earthling transactions for registered global traders who do import / export of goods, to other entities in other countries who are in turn registered import / export traders in those countries. ITB Banks would encourage, all registered global traders who do import / export of goods to showcase their products online on their website, for bulk import / export deals ONLY priced in EARTHLINGS, and not for retail sales in the local country, in local currency. This allows the registered global traders to be transparent to the Government, Central Bank, and the network of International Trade and Business Banks, ITB Banks.
6. All banks should allow international wire transactions in Earthlings, in smaller amounts with an upper limit, for regular citizens. This will be subjected to amendments by Global Earthling Council, GEC over time.
7. Local or domestic business; whether online or offline, must be conducted in the local national currency only.
8. The National wealth declared by each country in EARTHLINGS and officially brought on record by GEC, Global Earthling Council, the data will be available to the world country delegations at GEC. Along with such data, the international trade numbers in Earthlings of each country will be on record with ITB Bank. This curbs all fraudulent activities financed by rouge usd bribes or local currency of any one country in a different country.
9. All global 'Money based rankings' will be ranked in Earthlings. For example, Richest people listing cut-off could be by one Billion Earthlings, GDP (nominal) of countries will be listed in Earthlings (GDP-PPP (by Purchasing Power Parity) will cease to exist as a national economic indicator), Global movies earnings and rankings could be in Earthlings, International flight tickets could be priced in Earthlings, International hotel stay pricing could be in Earthlings, International tourism packages pricing could be in Earthlings, Global commodity pricing will be in Earthlings, International products or services pricing by exporters will be in Earthlings, International sports tournament prize money could be in Earthlings.
10. Forex reserves held by each country must be in Earthlings.
11. World Bank and IMF will cease to exist. So would the need for any world regional banks.
12. At international airports, point of departure, the forex stations should allow buying Earthlings against local currency. At the point of destination, forex counters should be able to convert Earthlings to the local currency of that country. So, most international travelers could only carry Earthlings and travel to any country and shall do fine upon landing.

Title: PROJECT EARTHLING©. Reset Global Economics.

A Macro Economic Reform and a Global Banking Reform.

This initiative brings about trade, business, and economic equality for all 193 countries.

This initiative delivers TRUE Independence / Freedom to 192 World countries.

The reform ends all forms of slavery in the world.

The reform ends usd-\$ monopoly and thus ends financial lever, political lever, economic lever applied by usa in the old world order on the world countries. The usd-\$ bribing culture promoted by usa will end.

This should have happened 200 to 300 years ago. The correction must happen right now.

Persistence of the Problem and its effects in last 247 years:

- 1) 247 years is an approximated post usa independence time frame; when usa formed its own government, usd-\$ currency rolled out and started its reign. Apparently, us Dollar existed in other forms for a few centuries before they got independence, however, that era may not be fully relevant to this discussion.
- 2) In these 247 years, usa has controlled, manipulated, and extorted wealth from all other 192 countries in the World, by making usd the standard for global trade and transactions / businesses. They monopolized usd as the currency for international business deals and transactions.
- 3) Over the last 247 years, usa has cheated all 192 countries in the World, cheated all humanity by enforcing this flawed system, by which they selectively delivered development to their chosen countries and denied wealth, economic growth, and prosperity to the other countries. The stark demarcation in developed countries and the rest of the World is visible to everyone.
- 4) usd has been kept in artificial demand over the last 164 years, based on monopoly achieved and its globalization. Wall Street and all major banks (say a dozen) in usa are directed and governed by 'Goldman Sachs'. Goldman Sachs have manipulated the global economy by keeping usd demand artificially high over the last 164 years, which resulted in its continuous strengthening over most other world currencies over this time-period. It must be understood that during the usa market crash of 1920's and even the 2008 Housing bubble burst that was induced, usd did not show a sign of weakening, except for an induced blip for a week or two.
- 5) The above point must be understood by all 192 countries very clearly. Let us take five sought after global commodities for discussion of this point. Crude oil barrel, Gold, Wheat, Natural gas, and Coffee. These commodities have been imported by most world countries at the global trade listed

PROJECT EARTHLING©
Description of the Macro Economic reform

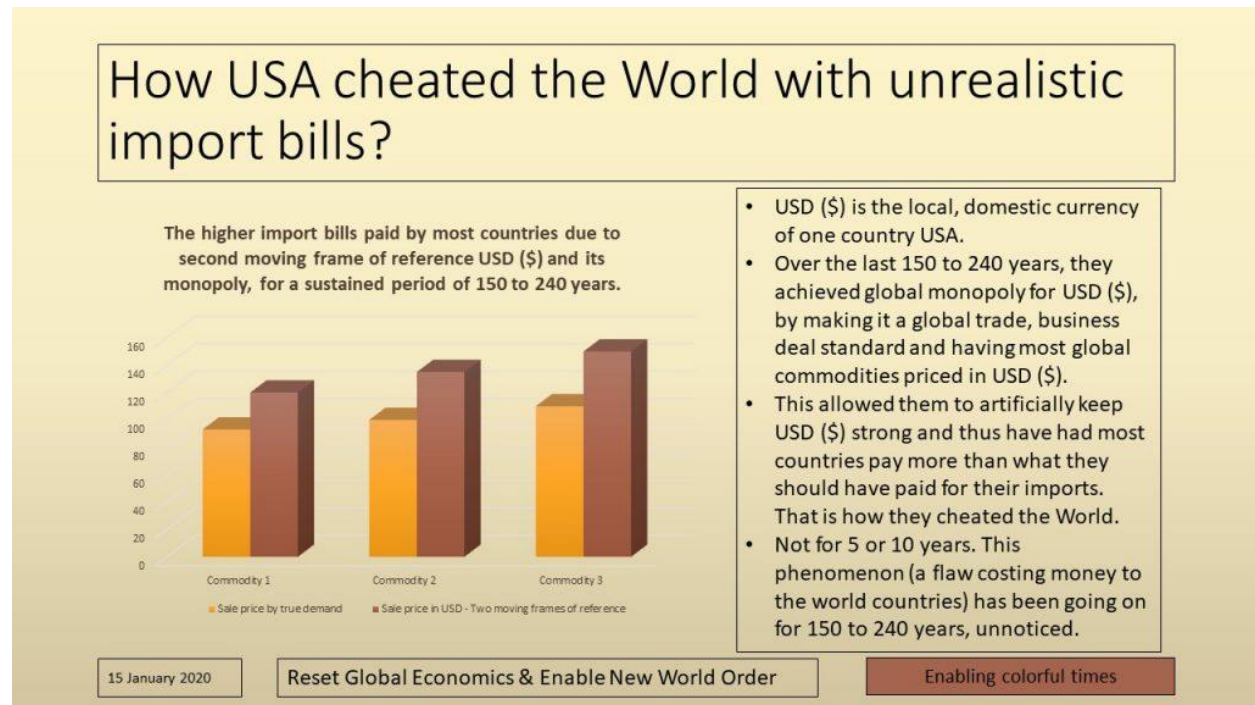

price. All the countries that bought these commodities at such a listed price have been cheated, have been made to pay more than what the commodity's real price was (based on its true demand and supply); because an always strengthening usd against most world currencies (in which the countries imported or bought them) resulted in "Exorbitant, unrealistic, inflated" import bill(s) to those countries. The same analogy must be extrapolated to all globally traded or sought-after commodities in the World.

- 6) usa has taken 192 other world countries for a ride, by cheating them with this "two moving frames of reference", and all countries have been ripped off with exorbitant import bills, due to usd being kept in artificial high demand. All 192 countries have been cheated by usa, and their usd for the 245-year period, in almost all imports that were priced in usd, that a country has ever made.
- 7) usa has made the world countries, world leaders, global organizations look like idiots, morons and cheated them by exorbitant import bills for not one or two years, but for a sustained period of 164 to 247 years.
- 8) Should the 192 countries ask for reimbursement of all these losses incurred by them over 164 to 247 years? The answer is YES. Will usa reimburse for the losses related to unrealistic import bills now in year 2023 or years to follow? The answer is THEY MUST. The 'Import bill fraud' lawsuits must be filed by 192 countries after 'Project Earthling©' is taken live. The factors that are relevant to 'import bill fraud' lawsuits are (a) Principle of transference – Importer must claim fraud payback from exporter. The exporter will transfer the claim to usa as their pricing in usd and the manipulated usd caused the fraud. Effectively, the exporter could be kept out of the equation, and all importers can directly file fraud suits against usa. (b) Given that 'united nations' is a puppet organization paid for in usd-\$, 'International court of justice – ICJ' is not the right court to seek justice for 'Import bill fraud'. In my proposed Judicial Council, a World court will be organized in the near future which will be fully capable of delivering justice to all the world countries for the 'Import bill fraud' committed by usa. The World court will be capable of taking in G V/S G (Government V/S Government) lawsuits and also B V/S G (Business V/S Government) lawsuits to deliver justice on each suit filed, presided by a neutral country bench of judges. So, each of the 192 countries must cumulate all their imports from at least the past 100-years (more depending on data availability), and file a suit against usa, in the World Court at Judicial Council and get justice delivered, and monetary payback for the exorbitant and fraudulent import bills.
- 9) The World must first correct the flawed system. Set things right. Introduce Project Earthling©, get it voted in by 193 World countries and take it live by Japan time 00:00 hours of Jan 1st, 2025. This will first put an end to usa's abuse of the World countries by using their currency usd. And all the globally traded and sought-after commodities will be priced in a non-fluctuating reference currency called 'Earthlings' which will reflect the true, real price of each commodity based on its demand and supply, without any artificial currency demand and its related inflated pricing linked to it. No country will be cheated on its import bill in the future. All countries will pay what the commodity being imported truly deserves.

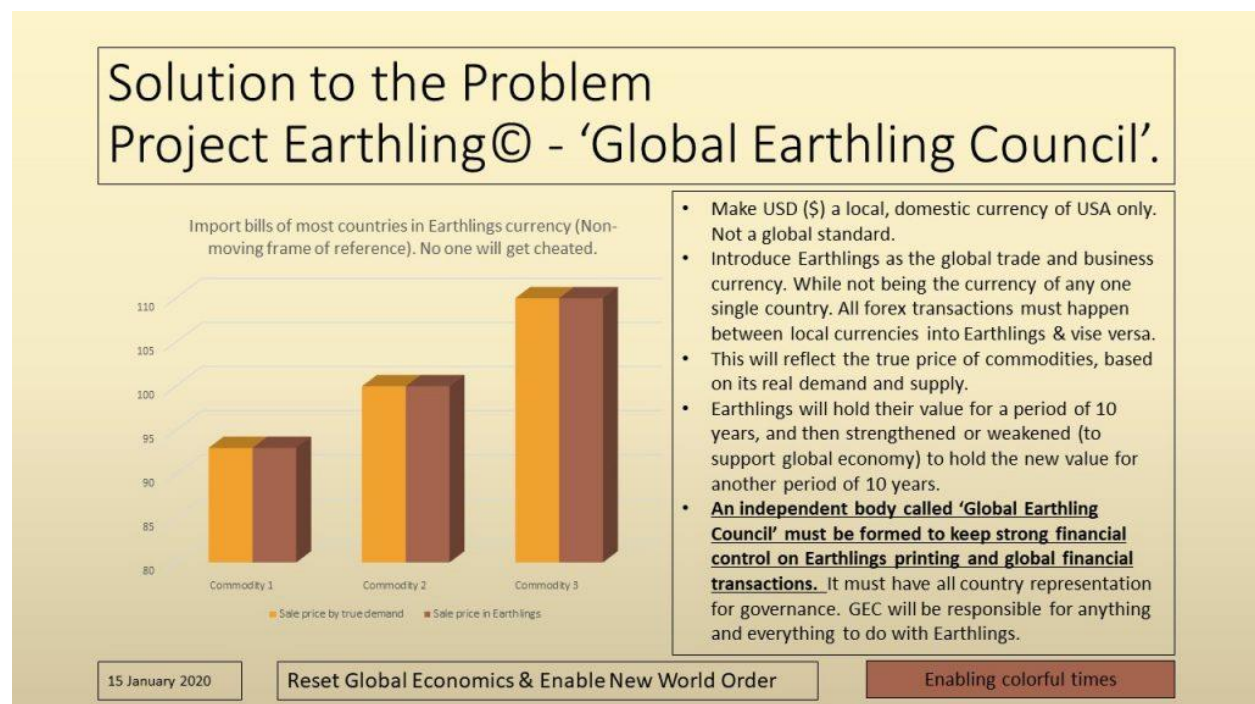

Edits / Corrections to be recorded from the copyright version:

- a) World Bank and IMF will cease to exist. So would the need for any world regional banks.
- b) Step 6 of implementation steps – Monitoring country treasury balances and controlling Earthling printing. Begin of normal – regular GEC operations.

A graphical representation of the problem of 164 to 247 years.

With this reform, countries will not be cheated on their import bills anymore.

PROJECT EARTHLING©
Description of the Macro Economic reform

Global Impact of Project Earthling©

The horrors and problems inflicted on world countries by old world order is solved permanently. The problem of 191 world countries and world citizens is solved.

Problem definition of old world order: The unequal world, with economic inequality, business inequality, trade inequality, dripping with racism, hatred, and jealousy, along with forced slavery in different forms imposed by rouge old world order usa, uk, and puppet un, on 191 world countries.

When the expenses of 'World governance' are paid in a world neutral currency such as 'Earthlings', all problems defined above, inflicted on the world will end permanently. Project Earthling© will enable the formation of NEW WORLD ORDER COUNCILS, which will be paid for in Earthlings currency, which will deliver the right and correct governance for all the world countries.

GI-50 and G-193 Councils to govern the world in the right way, with actionable governance. This ends the rouge old world order controlled by usa which also ran a puppet and sham un.

The old world order attempted some groupings of countries which never took any actionable, measurable, responsible, accountable decisions.

Examples of such groupings of countries are G-7 (Group 7) or G-20 (Group 20) countries. These groups of countries have met several times, and dispersed. They are just a forum for talking, and giving speeches, all of which never culminated into actionable development work or initiatives for the other 186 or 173 world countries.

Positive effects of Project Earthling© on world countries.

All the world countries / geographies

Let us look around the World and think which Countries would support this reform. The answer is every country other than usa will give full support and vote for the implementation of this Macro Economic reform. Once this is done, World will be a truly competitive place where talent, capability and effort will be truly rewarded. And World will get a break from usa that is constantly blocking, constantly using negative strategies at all other countries to stop their progress, development, and economic growth. Myself and India will take the lead to drive this initiative, present it to 193 world countries and get it implemented by the result of the decisive voting.

India and China: India and China are the two most populated countries in the World. The trouble for the old world order came right here. With such large population and vast resources, the countries cannot accept being 'Captive countries', always controlled, dominated and commanded by usa in the old world order. As an Indian citizen, 'Project Earthling©' evolved from that very feeling, wanting independence for my country and true freedom, to build our own wealth and treasury, which is independent from the control levers of usa and old world order. Project Earthling© enables just that. I am sure every Indian citizen will rally with their support to me in this initiative. I also think every Chinese citizen shares a similar sentiment and will rally their support to 'Project Earthling©'. If not for this project, to begin with India and China cannot dream of becoming 20-25 Trillion economies in the next few decades. Post 'Project Earthling©', India and China can aspire to become the largest economies in the World and not be 'Captive Countries', by holding usd; but be free countries by holding reserves in Earthlings.

PROJECT EARTHLING©
Description of the Macro Economic reform

BRICS group: It is a representative group of Developing countries. There could be other countries added to this list, which are in a similar mold to build up their economies. Project Earthling© will firstly free these countries from all clutches of USA; eliminate all roadblocks to their progress and development and finally enables them to hold their own wealth, treasury reserves in Earthlings. This makes them independent and free countries; competing on a level playing field and they can cumulate their wealth by true production of products and services. This analogy extends to all other developing countries in the World.

European Commission - EC / European Union: The European Union can continue to function as a union without any significant changes, in the Post Earthling world. One adjustment could be that they need not mandate or request the union countries to adopt Euro as currency. An estimated 19 of the 27 EC countries have embraced Euro currency. All the trade between the union countries can happen in Earthlings. This allows the union countries to retain their old currency or switch over to Euro if they choose to.

Here is a 'Point of view' – In the money based (capitalism) ideology, any two countries operating / doing local business (retail transactions) using a single currency are really one and the same country.

All other countries in the World: The key benefit to all countries in the World, is that now it shall be a truly decentralized World, with no one commanding country. With this reform taken live, I have authored and continue to author the NEW WORLD ORDER Macro reform, a Macro Governance reform, which will deliver much better governance for all the world countries with GI-50 Council (Group Influential 50 Council) and G-193 Council as the top Councils to lead the world into the future. This new world order, will enable conducive environment for all countries in the World, to voice their independent opinion on all world subjects and cast their vote at the Councils. The new world order and Global Earthling Council will allow these world countries to independently develop their economies, cumulate wealth in Earthlings, get rich, and become responsible countries.

World economies after Project Earthling© goes live.

The world economic order will become proportional to world population order. Project Earthling© is the first step in that direction. It will eliminate roadblocks, truly decentralize all the world countries; and delivers level platform for everyone to compete, do business, do trade in the right way.

A major advantage: is that when all countries hold their wealth in Earthlings, in the 10-year cycle when Earthling is either strengthened or weakened by 'Global Economic Council or Global Earthling Council'; no one country would complain, as what happens to you is what happens to everyone in the World. When all the world countries have no complains, it means everything is in right order. This project of mine will put Earth on the right orbit of development, peace, progress, and prosperity to all countries in the World.

PROJECT EARTHLING©
Description of the Macro Economic reform

NEW WORLD ORDER TO ESTABLISH AFTER PROJECT EARTHLING© GOES LIVE:

- The NEW WORLD ORDER that would be organized after Project Earthling© goes live comprises of Group Influential 50, GI-50 Council, Group 193, G-193 Council, Judicial Council, Medical Council, Records Council, Intellect Council, and Global Earthling Council, which along with other Councils will govern the world in the right way. I have introduced these councils and I will be introducing and authoring the details of few more councils. The work of NEW WORLD ORDER councils will be unbiased and genuine as all their expenses are paid for in Earthlings currency, a world neutral currency.
- This NEW WORLD ORDER, all its Councils will work for all the world countries, with responsibility, accountability, actionable plans, delivering measurable results.
- For all the globally relevant subjects, high impact subjects, crucial decisions to be taken, select regional subjects impacting many countries, the NEW WORLD ORDER COUNCILS will believe in and function by choosing democratic voting / poll conducted across 191 participating member countries as a standard method, at one vote per country.
- Project Earthling© will decentralize the World and will ensure that no one country's currency will work in another country. This truly brings equality to the World and puts a stop to bribing or financing 'Questionable activities', in another country.
- Global Earthling Council, GEC will monitor the 'Mints printing Earthling bills' and will have all country member delegates representation. This ensures right printing of currency Earthlings, right spend of funds in poor country development packages and on global initiatives.
- The New World Order Councils will govern the World in the right way. This was much required and is about 200 to 300 years too late.
- All New World Order Council expenses would directly be reimbursed by GEC (Global Earthling Council), against the local currency annual (financial year) expenses of running their offices at an individual country level. This allows New World Order Councils to expand their offices network across the world, hire more according to requirements to ensure right governance.
- The New World Order will ensure tabling the right subjects for discussion, debate, research, analysis and making decisions on all relevant, key and important global subjects.
- On a global scale few such important subject matters could be tabled for discussion and debate of all 193 member countries. And on such subjects which are relevant to the World – all 193 countries, a democratic voting method (at one vote per country) could be used to make decisions and take action pertaining to the subject. Examples of such subjects could be: a) Enforcing human rights across the World; b) Ensuring every country has a voice at G-193 council to speak and discuss the problems they might have; c) Managing energy demands of the World between various sources (oil, thermal, natural gas, chemical – electric, wind, solar, etc.); and throttling investments and research in one technique over the other or even finding a new renewable source, and the downstream effects of such decisions on 193 countries; or similar. These are some examples of global subjects which could be tabled for discussion at G-193 Council and brought for decisive voting and action.

PROJECT EARTHLING©
Description of the Macro Economic reform

Each Country Earthlings reserve equation

Current Earthling reserve = Last year 'Earthling reserve' – Total FY Earthling reserves spent on national development work – Total FY imports + Total FY exports plus or minus Citizen activity.

Wherein.

Citizen activity is international travelers (incoming and outgoing) exchange of Earthlings to local currency and vice versa at forex counters; and plus or minus Non-business citizen remittances in Earthlings (incoming and outgoing) through Banks.

The data of FY imports and exports will be available with the 'International trade bank'.

GEC policies will be subjected to amendments over a period of time. The formula may adjust according to some policy changes or amendments. GEC may give development loans (packages) by recording it as a long term loan & debt against the Country's financial records. Many countries that qualify and belong to poor countries or developing countries, will take the loans (once they see & understand my Earthling Foundations work and upcoming initiatives in India) and want to emulate the work in their country.

Opening National Treasury Balance as recorded by Global Earthling Council.

Global Earthling Council will record the opening national treasury balances of all countries when Project Earthling© goes live.

GEC Opening Balance for 192 non-usa world countries: The easiest option for the 192 World countries would be to just record the actual (current day) opening balances for their countries with GEC.

GEC Opening Balance for usa: Given the unlimited printing of usd (\$) for over 247 years by usa, the 192 World countries will not allow any opening cash balance for usa in Earthlings. So, usa GEC Opening Balance shall be 'ZERO' cash component. The Fort Knox gold reserve will be recognized as non cash component by GEC, given that it is documented and recognized by all world countries. Fort Knox gold reserve was estimated at 380 Billion \$ few years ago.

Record keeping by 'Global Earthling Council' - GEC

GEC will own the activity of printing Earthlings as per requirement and need of first cash reserve for ITB – International Trade Banks, Forex counters, and replacing declared usd-\$ reserves. At the time of launch of Project Earthling©, the first entry (of national treasury reserves) per country will be recorded by GEC on actuals and will be monitored quarterly and tracked annually.

PROJECT EARTHLING©
Description of the Macro Economic reform

Baseline National Treasury reserves recorded by GEC when Project Earthling© goes live

Simple objective: The Central bank starting balances when Earthling goes live must be a true, real reflection of the existing world and each country's economies and their real earnings. This is the objective, when Earthling goes live and Countries across the World baseline their Central bank starting balances with GEC. Real reflection of true earnings is the key phrase.

Key Factors related to the 'First entry' and ranking of National treasury balances:

- The sale of worldwide IP rights to my invention US 8,910,998 B1, will allow me to bring the full value of 93 Trillion Earthlings / \$ into India. Myself and India would declare our opening national treasury balance which will be a fraction of the 93 Trillion Earthlings. This will be the declared opening balance of India which will also form Indian Treasury physically located in India.
- Myself and India will move towards achieving 'Goal Year 2050 for India' in which I will be launching a series of initiatives over 30 years by way of Earthling Foundation initiatives, Private and Public, along with economic reforms implemented through IEC – Indian Economic Council policies. This will be rephrased as 'Goal Year 30 FE for India' in the near future.
- usa has been printing usd-\$ for themselves and for the world, as much as they want, and mixing it into the Global trade, banking, and business system for past few centuries. Hence, there is no reference starting point for usa balance. This must be recorded by all world countries. Hence their opening treasury balance cash component will only be zero.
- Given the commonality due to race, religion, english only speaking, white supremacy ideology, usa has shown favourism to its siblings of old world order uk, Canada, Australia, and New Zealand. Hence their starting balances must also be validated by the global community. Needless to say, they must be on actuals and they will certainly rank well below usa.

GEC National Treasury balance components

You can also read it as 'GEC National Wealth balance'. So, when you think of what cumulates into National treasury reserve?

The answer is simple. "Wealth" only. Examples of what adds into national reserve: Cash reserves, commodity reserves built by cash (e.g., Fort Knox gold reserve in usa).

What does not constitute national treasury or national wealth reserve?

Natural resources / reserves, minerals etc., (in Earth). It is not 'Wealth'. Or at least not translated into wealth. Examples are: Estimates of iron ore reserves, oil reserves, minerals, or metals in mine sites, or similar.

PROJECT EARTHLING©
Description of the Macro Economic reform

Implementation Steps for Project Earthling©:

The procedural steps involved in launching 'Project Earthling©' will be as follows.

Step 1 – The initiative must be introduced worldwide via global media houses, and at several global forums, such as WIPO, and to all country governments and central banks.

Step 2 – Discussions and voting. The introduction would lead to discussions at many levels. Post discussions, a WIPO voting must be conducted, with one vote per country on the subject. This initiative will be voted in. A governing body must be established (name (e.g., Earthling Council, or Global Earthling Council, or Global Economic Council), governing team (e.g., One member from each country) and other details (e.g., role, responsibility, scope of work, High level Directional document, etc.)).

Step 3 – Once the initiative is voted in, we need to design the currency bills. (a) Billion, Half Billion, Million and Half Million Earthling bills for Central Bank holdings and exchanges. (b) 10000, 5000, 1000, 500, 100 Earthling bills for citizen (international travelers) exchanges only. There shall be no other denomination (for e.g., currency bills of 50, 10, 5, 2 or 1 used for local purchase transactions), as no country allows purchase/sale (or local / domestic retail businesses) by using Earthlings. It is only an International trade and business currency and foreign exchange currency and not for domestic trade or business.

Step 4 – 3 Mints that will print Earthlings shall be set-up in a single location. These mints will be governed by all countries (their representatives); and will be under 24*7 surveillance. The location should ideally be in India, China, or Europe. City to be selected. Drive the registration of 'International Trade and Business Banks' – ITB Banks, registered in all 193 world countries.

Step 5 – Flushing usd from all non-usa countries. Earthlings shall be printed to replace usd holdings of all countries (their Central Banks). The exchanged usd should be retrieved and trashed / shredded (as in truly replaced). GEC to provide the first reserve cash drop of Earthlings to all the registered ITB banks across 193 world countries. They shall also finance the Foreign exchange counters enabling bi-directional local currency to Earthling exchanges.

Step 6 – Monitoring and Controlling the Earthling printing. Begin of normal – regular GEC operations. After replacing the reserves of each country (their Central Banks) by Earthlings, GEC would give first cash reserve drop to ITB and Forex counters across all countries. Based on the analysis of trade requirements of countries (categories of countries), adjustments could be made to GEC policies over a period of time.

The entire reform could be rolled out in 1 or 2 years. This resets the world economics and baselines the world economy and gives equal opportunity to all countries in global trade and business. All countries can aspire to achieve progress, development, and get rich, without any roadblocks.

Significance of Project Earthling© - A Timeline marker for Earth:

The Launch of Project Earthling©; will be so significant to humanity, that the years could also be reset to start from ONE. It marks the time of World getting real freedom, real independence from usa and uk regime and tyranny. The World, its 193 countries, its 9.5 Billion people are truly liberated, at the time of launch of Project Earthling©. It marks the end of slavery and lawlessness in the world, and the beginning of a structured and law-abiding world. It delivers trade, business, and economic equality, freedom and independence, baselines 193 country economies and allows them to grow from there. About 2024 years

PROJECT EARTHLING©
Description of the Macro Economic reform

ago BC (Before Christ) came to an end. And the years were marked as AD, Anna Domini. The launch of Project Earthling© will mark the end of the rouge regime run AD – Anna Domini years, in particular the last few centuries. Hence, the beginning of a new era is inevitable and absolutely essential.

When Project Earthling© goes live, the years could now be marked as FE.

Given the worldwide impact of Macro reform 'Project Earthling©', FE stands for and implies,

- Freedom by Earthling
- Freedom to Earthlings
- Freedom to Earth
- Freedom to world countries by launch of Project Earthling©

The new era marks the end of all forms of slavery, delivers real independence to all the world countries, delivers real freedom to world citizens, liberates humanity from the shackles until death grip of old world order, terminates what was to be never ending racism, hatred, jealousy exuded by old world order translating to suppression of world countries and world citizens.

Termination and death of AD – Anna Domini years.

2025 could be the last AD year. And must also be called as the 0 FE year.

The 2026 AD must be reset as 1 FE year. And could increment from there onwards.

PROJECT EARTHLING©
Description of the Macro Economic reform

Is the World ready for FE years? I think they are more than ready to live in a real and true World with full freedom and independence. I think this life of Equality, life with no slavery, freedom and independence is about 300 to 500 years too late. We must make it happen now.

My final choice for FE is 'Freedom by Earthling'. It is apt and marks the beginning of a glorious and prosperous future for world countries and world citizens.

Macro Reform: PROJECT EARTHLING©. Decentralized we prosper.

Reset Global Economics.

A Macro Economic Reform and a World Banking Reform.

This initiative delivers trade, business, and economic equality for all 193 world countries.

This initiative delivers REAL Independence / TRUE Freedom to 192 World countries.

The reform ends all forms of slavery in the world.

This reform should have gone LIVE 200 or even 300 years ago. The correction must happen right now.

The reform ends usd-\$ monopoly and thus ends all levers applied by usa in the old world order on the world countries. The usd-\$ bribing culture promoted by usa will end.

Humanity was not allowed to LIVE in a comfortable, free, independent, and uncaged world. A caged life was devised and forced on this planet by rouge usa in the old world order.

When we look at the history of planet Earth, and in particular the evolution of human beings from single cell animals to the current day humans, evolution has left the planet Earth, and humanity out of balance. While the human evolution has brought us into the stage of evolved brains and capability of evaluating and solving any problem, by a certain group of rouge elements, and rouge leadership, in that a self proclaimed one, pushed this planet and humanity into never ending suffering, pain, slavery, and imposed a rouge old world order, in which 191 world countries were rendered order taking slaves, exploited in every way possible and were only to be controlled by way of the imposed multitude of created levers, such as business lever, trade lever, financial lever, political lever, culminating to economic lever, all by a fraudulently ill-conceived plot of driving a local domestic currency of one rouge country usa, usd-\$, as a world standard trade and business currency, driving its monopoly across the world. The entire rouge world order, run by the rouge regime, further continued their damaged brain, psychologically ill minded, all forms of questionable horrible motives, and agendas by torturing, and murdering over billion humans on the planet, and are yet to know the meaning of 'respecting human beings and humanity' on the planet. This psychologically ill rouge regime has shown no respect for human beings on the planet, no respect whatsoever for the 191 world countries, and is only interested in murdering people at will, using them, exploiting them, not limited to labor and sexual exploitation, and going into stealing human organs, chopping people up and at humanities expense, try to extend their lives.

The Planet and humanity were used, abused to the maximum by this rouge old world order, with the incorrect, ill-planned, wrongly thought out, illogically designed rouge old world order. The flaw on which they thrived including the artificially engineered, methodically forced and imposed on the 191 world countries, their local domestic currency usd-\$, by forming a rouge organization Goldman Sachs. In this incorrect and rouge old world order, over 9 billion people are suffering with no outlet from the imposed cages, and 191 countries are order taking slaves. The world leaders, governments, citizens, businesses, corporations, are left with no freedom, no rights, no law, and are slaves in a 'planet cage', 'life cages'.

PROJECT EARTHLING©. Decentralized we prosper.
World Independence Day.

While the human brains have evolved, no one was allowed to question this rouge old world, their imposed racism, hatred, jealousy driven psychotic murderous regime on the world, or solve the problem of this planet. Anyone, that attempted to question their authority was murdered and their order taking puppet planted to keep this rouge world order intact for nearly 250 years. The flaw is more 'Economic' than anything else. This was yet to be realized by the 191 world countries, their governments, their leaders, their citizens, their businesses, and their corporations. The past attempts against the regime were directionless and did not attack the central problem of the rouge old world order.

I bring to the 191 world countries, their governments, their leaders, their citizens, their businesses, and their corporations, to the brand new world neutral currency 'EARTHLINGS' which will solve the central problem of planet Earth and human beings, and paves the way for an absolutely free, fully independent, set of world countries which do not have to deal with any imposed slavery or any rouge old world order regime psychotic self proclaimed rouge boss. EARTHLINGS will be the world standard international trade currency, international business currency, world countries foreign exchange currency, and world countries national reserve currency, without being a local domestic currency of any one country.

While this reform at the core is a 'Macro Economic reform' and 'World Banking reform', correcting the flaw on planet Earth, its impact, significance, in the way of solving all the problems that have ailed this planet and humanity, and further having its multi-wave, multi-dimensional, transformational effects to the 191 world countries, and their citizens, will be so far reaching and with such high impact and transformation, that its positive effects will resonate for many decades and centuries to come. The Macro Economic reform will be celebrated as a stand out 'Timeline Marker' on the timeline of Planet Earth. It will be remembered and recognized as a mark of brilliant work that solved all the problems of humanity that spanned across the Neanderthal era, through the centuries before christ, through the anna domini years, and delivered an organized world with established 'International laws'.

Its transformative effects are to be fully realized over the next few decades by all the World countries. This reform will eliminate all forms of slavery on Planet Earth, delivers an EQUAL world, wherein the equality is not limited to RACIAL equality, ECONOMIC equality, Business equality, Trade equality, Political equality by way of decentralized independent 193 world countries, and goes beyond, HUMAN LIFE equality. All the problems that have ailed humanity and Planet Earth will come to an end when the NEW WORLD ORDER is fully realized and established with 'Governance that is unbiased', with 'Governance that is not dragged in tangential directions for any selfish reasons', with 'Governing Councils that establish and protect International law', 'that care for and protect human life', 'that are directed towards solving problems and not creating problems', and 'that deliver 'progress, and economic growth' to countries.

The Macro Economic reform will be considered the most intelligent, and brilliant reform that saved 191 World countries, and humanity from what was going to be a never ending suffering and torture by the imposed life cages, by the combination of External and Internal cages. The Macro reform, destroys, shatters, all forms of imposed life cages on human beings and sets them free into an organized world.

How will 191 world countries celebrate the going live of Project Earthling©, and mark the event in the history of Planet Earth:

All the 191 world country leaders have come to realize the flawed world, human beings were forced to live in the last 245 years, and now understand the high impact, transformational effects of this Macro Economic reform to humanity. Hence, we shall mark the end of the rouge old world order by ending the anna domini years, and starting FE, Freedom by Earthling years. The reform will be etched in the history.

Greed driven exploitation of world countries in old world order.

USA exploitation of the world countries in old world order, filled with racism, hatred, and jealousy, with no existence of Economics and driven only by selfish greed. I introduce and bring 'Macro Economics' to the World countries, by which they can achieve sustained GDP growth and achieve prosperity in FE years. World country Economics never existed or was allowed to exist in the old world order.

There was nothing called 'Macro Economics' in the old world order. The old world order could be termed as forced / imposed monopoly economics, wherein one country USA, by building monopoly of their local domestic currency USD-\$, and further by proliferating it as an accepted bribing currency in the other 191 world countries, rode in this incorrect economic model, and in the name of printed bills, called currency

to be used for any transaction, every transaction, forced their dominance on the world countries, making usd-\$ a accepted currency only in cash, a bribe which will be exchanged through their own created, paid network called havala in India, with similar local names across world countries, used this usd-\$ as a method, a tool, a lever, a technique, a way of forcing themselves, a way of twisting, read it as arm-twisting, strangling, put countries, leaders, gangs of rouges, gangs of criminals, in their payrolls thus getting anything they want done in the 191 target world countries. These transactions never came into the bank account, nor were ever legitimate. They only proliferated illegitimate transactions, piling up illegal wealth, injecting, infecting, forcing, and promoting corruption, into all 191 world countries. The 191 countries, were further made to accept this as the truth, way of life, way of living, when the rouge usa goes onto build and set-up a rouge old-world order fully paid in the same currency, who would only take their orders.

By this method of using one local domestic currency of one country, usd-\$ and forcing it onto the world countries, and building a puppet rouge united nations paid in the same currency and controlled by the same rouge country usa, the world countries were to be methodically arm-twisted, forced, illegally persuaded, and methodically destructed, into submission and slavery which came in every form and many forms. Once this monopoly and the puppet un organs were setup, the 191 countries were to be now forced into doing whatever the rouges in usa, uk want them to do. The countries were ordered, forced to cater to their demands. Anyone that resisted would be forced to go down or even killed, to plant another leader who would take their orders and act to their liking. This translated to the forced imposed political lever of old world order. Countries were made to surrender to the commands and demands of usa.

The 'Economic hurt' was far more deep and destructive for the 191 world countries, as the rouge usa would not allow any local country businesses, companies to flourish or become successful. All the local brands across the world countries were to become economic murder targets. This included any and every local brand, any and every local company which had ambitions of becoming a large corporation to provide jobs in their country, which would mean, the 191 world countries are looking for prosperity which must be denied, refused under all circumstances by usa, uk, and the rouge old world order. All local businesses, all local companies were either forced to their death or forced into a merger, to take their orders.

The battle was always against unlimited printing of usd-\$, which put the rest of the world, 191 world countries, their businesses, their companies, their citizens into a position of impossible to win. This economic flaw on which usa rode, was to keep bossing over, and ordering the 191 world countries, such that these countries never would be able to concentrate on their Economics, or economic indicators.

Usa in the old world order ensured that no sprout of human spirit, no root of patriotism, no start of a local company, no positive initiative taken up by the country leader, even moved to the next stage, and ensured it is killed or terminated at the earliest possible stage. Their agenda was to kill the competition even before they start to compete, at a multitude of levels across all the 191 world countries.

It is evident to the entire world, all the 191 world countries and their citizens that usa, and the rouge old world order used a 'PLETHORA OF NEGATIVE TACTICS' to ensure anything and everything in 191 world countries is destroyed and targeted, with their psychotic objective of remaining the self proclaimed rouge leader and stay at number one position by GDP, which is incorrect / wrong given the unlimited printing.

In summary, the economic flaw that has destroyed 191 world countries, destroyed the lives of over 9 billion people on planet Earth, is the 'UNLIMITED PRINTING OF USD-\$ BY USA, AND MIXING IT INTO THE INTERNATIONAL TRADE AND BUSINESS ILLEGITIMATELY', while delivering unreal, incorrect, illogical, and inflated national (flawed gdp) and corporate (flawed earnings / share prices) for the rouge country usa.

Moving from unorganized monopoly to organized monopoly.

Usa since its declared independence in 1777, started to use usd-\$ in the limited ways and means available at the time across 191 world countries and started to build monopoly of their local domestic currency across the world. This starting phase of usd-\$ monopoly was unorganized, which moved into an 'organized monopoly' driven by the establishment of 'Goldman Sachs' in year 1860. It is from this year, 1860 that usa fully imposed their domestic currency usd-\$ as a world standard, starting with the pricing of the top commodities traded across the world countries, and making usd-\$ as an accepted international transaction currency, however only illegitimately, and not a legal tender happening through banks.

It is from this year 1860, that usd-\$ showed its full dominance on the 191 world countries. And it was by design, at the outset, that usa dealt with international transactions by cash, with local planted exchangers who would translate this currency usd-\$ to their local country currency. This entire trail of network and transaction is illegitimate and outside the banking system of the world countries. It must be understood

by the world countries that, the method of commodity pricing and commodity prices were now carrying this 'economic flaw', and they were flawed in an organized way since 1860, and in an unorganized way prior to 1860. It must also be understood by the world countries that this method of transactions designed, building the transaction network, all of who will receive their cuts / share of money, is at the center of 'STARTING AND PROLIFERATING CORRUPTION ACROSS 191 WORLD COUNTRIES'.

At the source, it is this economic flaw that usa uses to move into next phase to stamp authority on the world, by demonstrating their technology and military might in World wars I and II. Further, it is this economic flaw that usa uses to create a fully controlled, puppet, rouge 'united nations' fully paid in unlimited printed usd-\$, working only for the selfish and diabolical objectives of usa.

In the subsequent sections, I present how this economic flaw was used against the 191 world countries, across the various functional sectors of the world countries.

FORCEFULLY AND ILLEGITIMATELY APPLIED POLITICAL LEVER. ALSO MANIFESTS AS TRADE LEVER.

Usa, their bullying, threatening control of 191 world country Governments. Many world country leaders have been threatened, dethroned, replaced by a puppet, or even killed.

One of the central, core method adopted by usa in the old world order, was using the economic flaw at the 191 country Governments, or rulers, or regimes, or leaders. The core objective and goal of usa is to ensure this target country, extrapolate to all 191 world countries, totally are in their grip, their control, take their orders, act according to their orders and commands. By using the 'economic flaw' coupled with their military domination and fully controlled puppet united nations, they took the aggressive posture of threatening, bullying, forcing, commanding, ordering, and bossing over all the 191 world country Governments. This involved the usage of a political communication, in some cases coupled with an illegitimate payment in usd-\$, through their built up rouge network. This allowed them to control all the 191 world country Governments, rulers, regimes, and leaders.

This is called the forced, imposed 'Political lever' usa used and imposed on 191 world countries. It must be understood by the 191 world countries that this payment made to some select network contacts, is an entirely 'ILLEGITIMATE', unrecorded into banks, 'CORRUPTION PROMOTING' forced on the target country, and a threatening deal. This is used while threatening the target country Government, Leader.

How does this work? Usa tactics related to this, is to put in place a Leader, who would take their orders, does what he is asked to do in the old world order. This involves taking orders, commands, and initiating action in the target country 'THAT GO AGAINST THE INTERESTS OF THAT COUNTRY' to keep them slaves. If a strong leader demonstrates patriotism for his country, opposes the orders given to him / her, the rouge usa uses all negative tactics against such a leader, not limiting to threatening, bullying, using financial, or military threat, financing and supporting his/her opposition, and will look to replace the patriotic leader. This is intended towards bringing in an order taking puppet leader. In the case of a kingdom, the same kind of approach is forced on the king, who could be dethroned. There are extreme cases where very strong leaders have been eliminated, killed by planned murder.

While I can give some references from the history of the world countries, I will let the 191 countries directly speak and document this history for their respective countries. This is a tactic usa has used across all the 191 world countries, to keep them slaves, and ensure that these target countries have NO economic prospects, in the old world order. The planet was to be of 191 order taking 'CAGED COUNTRIES'.

FORCEFULLY AND ILLEGITIMATELY APPLIED BUSINESS LEVER.

Usa, and their greed driven murder of 191 world country brands, and businesses. Most of the world country brands, businesses have been killed, or forced into acquisition.

Human spirit is unbridled. There are talented people all across the world, and in all 191 world countries. Usa hates this fact, since such talent will build businesses, and hence deliver economic growth prospects to the country. They want to oppose, deny wealth prospects to all countries, keep them suppressed, under oppression, and to keep them slaves. They want to kill any and all competition anywhere in the world.

With reference to India, many new businesses that were established which would go onto become popular brands within India, were only to be targeted by the economic flaw, the unlimited printing of usd-\$. There are Indian brands, and businesses across many sectors all of which were deprived of financing, drained with expenses, and killed by bribes that were given to respective sources of finance.

PROJECT EARTHLING©. Decentralized we prosper.
World Independence Day.

The number of Indian brands and business that have been killed / murdered is a sizeable list across sectors, by forcing the elimination of local financiers, government, regime support for the business. This is the way to bring in their brands into India, and increase their brand, business sales and revenue. Their business, brand growth story is from 'economic flaw, UNLIMITED PRINTING' of usd-\$.

They would finance their businesses and brands, both legitimately, by some international bank which is allowed to finance them heavily, and also illegitimately financing promotions and marketing investments in India. The unlimited printing of usd-\$ allows significant promotions and marketing of their brands, business. Deprived of financing unable to sustain, counter unlimited printing Indian brands died.

The same is the story of 190 non-India countries. The negative approach and tactics used are mutatis mutandis across the world countries. In summary, all the brands and businesses that have been attempted to be built by the 191 world countries have been targeted by the economic flaw and have been forced into their death, a well planned, well orchestrated, methodical business murder.

This is called the usage of 'Business Lever' against the world countries. How does this work? The brands, businesses they do not like are killed, murdered, by depriving them of wealth, financing prospects. The Founder, CEO to abandon the venture or killed. The brands, businesses they like are threatened, bullied, forced into submission to be acquired, a forced merger into their group companies, only to take orders.

FORCEFULLY AND ILLEGITIMATELY APPLIED FINANCIAL LEVER.

Usa, and their elimination of competition in 191 world countries. Most of the world country local organizations / companies have been killed by negative tactics.

India, similar to 190 other world countries, have several organizations which could be technology, operational support, or support services organizations that work for, and support the respective country Governments, their citizens, businesses, and corporations. Usa, has attempted to come into these organizations, weaken them, control them, or replace them. These targeted organizations will never go onto create or offer millions of jobs, or contribute technologically to the country. This is an integral move to impose the full Political lever control, going into Trade lever control, as some of these organizations would support the Government functions. By controlling these organizations, they gain control of the Government internally. So, in many cases, by engaging in frivolous conversations, they encroach into these organizations, either weaken them, or attempt to replace them, gaining control on target country.

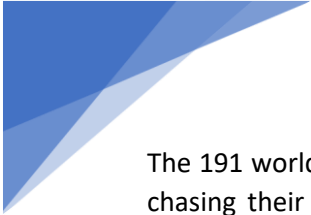

This is achieved by applying the 'Financial lever', again riding on the economic flaw, of 'Unlimited printing of usd-\$. The application of 'Financial lever' goes well beyond targeting a set of organizations, and weakening or replacing them. This is central to proliferating bribing, hence corruption into every sector of the target country, resulting in them fully neutralizing any economic growth prospects of the country.

The 'Financial lever' by way of bribing goes into every industry, every sector, every organization worth targeting, every association worth targeting or worth using, all to gain absolutely full control on the target country, and put the entire country in a cage, in that a permanent one, by way of which the target country loses all ability, all control of their country progress, economic growth, remains derailed, and destroyed. The bribing, usage of 'Financial lever' has allowed usa to perform an array, a full range of illegitimate activities, in all the target 191 worldcountries, including and not limited to, bribing and targeting education sector / local colleges / local institutions, bribing and gaining control of local pharmaceutical companies, and by fully controlling illegal clinical trial companies, they also conduct illegal clinical trials, target millions or kill them.

While in India the illegal clinical trials would have target and possibly killed over 100 million people in the last 250 years, an estimated billion or more people have been targeted by illegal clinical trials or killed across the 191 world countries, by usa over the last 250 years. The imposing of 'Financial lever' on 191 world countries have left them deprived of progress, economic growth, being fully caged, and being fully controlled, to be exploited, used, extorted by usa, any which way they want. The Financial level includes, bribing and gaining control of movie industry, bribing and gaining control of broadcasting, television industry. This has enabled usa in the past to identify targets for labor slavery, and/or sexual slavery. In summary, the 191 world countries, their citizens, are set-up to be fully exploited, subjected to extortion, put in a cage, with no prospects of progress, or economic growth, by this dangerous Financial lever.

FORCEFULLY AND ILLEGITIMATELY APPLIED FINANCIAL LEVER.

Usa, and their pharmaceutical companies have killed over a billion citizens across 191 world countries, by conducting illegal clinical trials. The world was deprived of international laws.

PROJECT EARTHLING©. Decentralized we prosper.
World Independence Day.

The 191 world countries have come to realize that usa engineered and built the puppet 'united nations' chasing their psychotic dream of getting a second life, by murdering target subjects from 191 world countries, and do this for decades and centuries to come by using their built-up corruption network, across 191 world countries, and by using unlimited printing of usd-\$, the economic flaw.

Given that unorganized pharmaceutical work, cutting up million of dead bodies for research, became organized pharmaceutical company work in mid 19th century usa. Pharmaceutical companies were registered and they started to do clinical trial work to develop products for sale. They wanted to use the 191 world countries to do all the dangerous, questionable trials illegally.

Given the Financial lever, and the proliferation of corruption, they ensured there were no food regulations in many of the 191 world countries, and they started to induce random diseases and started to force random counter molecules in the name of cure, all cumulating to illegal clinical trials. These trials have killed over a billion people across 191 world countries in the last 250 years.

How did they go about doing this. By design, they ensured there was nothing called as 'International law' on planet Earth. The 191 countries and their citizens were set-up to be used, and abused with no legal protection in place. Further, by using Financial lever, they were immune to any local laws of 191 world countries. Usa is yet to recognize, rather respect the local laws existing in 191 world countries. In India, a country that never had the presence of christianity religion, missionaries arrived, financed by the economic flaw, unlimited printing of usd-\$, using Financial lever, set up many churches, converted some target Hindus by bribes, built christian schools and hospitals. Bulk of illegal clinical trial work in India was conducted through this chain of christian hospitals. The christian schools were set-up with Nixon technology to find target subjects to exploit for slavery.

ALL LEVERS CULMINATING INTO ILLEGITIMATELY APPLIED ECONOMIC LEVER.

Usa, has murdered the human spirit, human energy, human endeavor, patriotic human effort across the 191 world countries.

Using all the levers discussed above, the combination of them all built into 'ECONOMIC LEVER'. The objective of this is to never allow any progress, development, economic growth, wealth prospects, independent thinking opportunity, GDP growth, financial well being, economic well being, autonomous thinking to the target country, in that all 191 world countries. With this diabolical, sinister, objective of keeping all 191 countries as slaves, suppressed, and in oppression, only to be used any way they want, they never allowed any talented person from these 191 world countries to contribute positively to their country economically, or any economic or business indicators positively. This includes various options not limiting to destroying the target subject financially, by targeting his education prospects, targeting by poisons / drugs, drag the target subject to their country to be used, and / or killed.

In this old world order run by the rouge usa, working for your people, your country, demonstrating strong patriotism to your country, contributing to your country economic indicators, contributing to your citizens by giving more jobs, contributing to your society, your community is a crime, a sin that must be dealt with harsh actions not limiting to murdering the target person. Millions of people from across the 191 world countries, who demonstrated such human energy, human spirit, put in the human effort, human endeavor, to work for their country have been methodically, systematically destroyed by usa, the rouge old world order, to ensure no positive results are contributed to the 191 world countries. 'DESTROY THE PROSPECTS OF 191 WORLD COUNTRIES, TO RETAIN THE NO. 1 POSITION' is the principle they have used against the 191 world countries.

These are people with real talent, skill, ability, patriotism, who want to work positively to deliver results for their country, protect their people, that were identified and methodically destructed, or terminated. The negative tactics used are many, and generally involved derailing the target subject by luring him/her into negative vices to destroy the goal / objective, mission that the target subject is working towards.

The ones, strong ones who would not budge, who are unwavering, strong individuals, strong leaders, strong characters who would not take their bait, and follow through with work directed towards their goal / objective were murdered, and puppets who work for them moved into their place. The 191 world countries know the names of such characters who have died working for their countries.

I bring you into the NEW WORLD ORDER, that shall be established and paid for in world neutral currency Earthlings. All these negative tactics of old world order would be fully terminated by this Macro reform.

PROJECT EARTHLING©. Decentralized we prosper.
World Independence Day.

Citizens of all 191 world countries, all of them, including the talented, strongest leaders, can now work for the well being, economic growth, progress, and prosperity of their country, their citizens without fear.

In this context, I further direct the talented citizens, strong leaders willing to work for their country, to directly engage with the 'COUNCILS' of the New world Order all of which will be paid for in world neutral currency Earthlings, with very clearly defined goals / objectives, such that you can fearlessly work for your country and your citizens with full patriotism. The COUNCILS will provide accurate, and correct directions for all the poor countries, developing countries, emerging economies of the world, which will be unbiased, with no tangential objectives attached, and will take you all the way to achieve your end goals / objectives. Usa and the old world order gave only derailing, and destroying advise and that when unsolicited.

Usa, as if the above psychotic behavior is not enough, has murdered citizens of the 191 world countries for any reason or no reason at all. This is out of racism, hatred, and jealousy.

While murdering, destroying, derailing, sabotaging the talented citizens, and strong leaders like described above is one negative tactic of usa, rouge old world order, their entire thinking, was driven by intense HATRED, intense JEALOUSY and diabolical, devious objectives driven out of intense RACISM. Usa and old world order engaged in targeting citizens, and even murdering for no reason or any reason all purely driven by racism, hatred, and jealousy. This resulted in a world, a list of 191 world countries, over 9 billion people on Earth, and entire humanity put in an EARTH CAGE. By ensuring nothing called as Economics existed in the old world order, and the only existing motive on Earth, is the selfish, psychotic, diabolical, devious, goals, and objectives of usa, uk, and their order taking puppet un, the 191 world countries were rendered into slaves, with no hope of earning income, realizing wealth, achieving progress, and prosperity.

The psychotic devious minded usa objectives did not stop here. Their pharmaceutical companies set up in 19th century, engaged in never ending 'illegal clinical trials' all across the world, targeting millions and killing millions, most of which are racially motivated, in this context racially driven by skin color, religion, language, region, ethnic origin, or food habit.

An estimated billion people have been killed across 191 world countries, by usa pharmaceutical companies in the last 250 years. Murdering people from 191 world countries was unbelievably, for any reason, or no reason at all. This included, and not limiting to people that are smart, look smart, people that look attractive, attractive skin tone, attractive hair style, by their definition, from 191 countries.

Usa has imposed 'External cages', using Nixon technology in all the world countries, to find targets for menial jobs, or all forms of slavery.

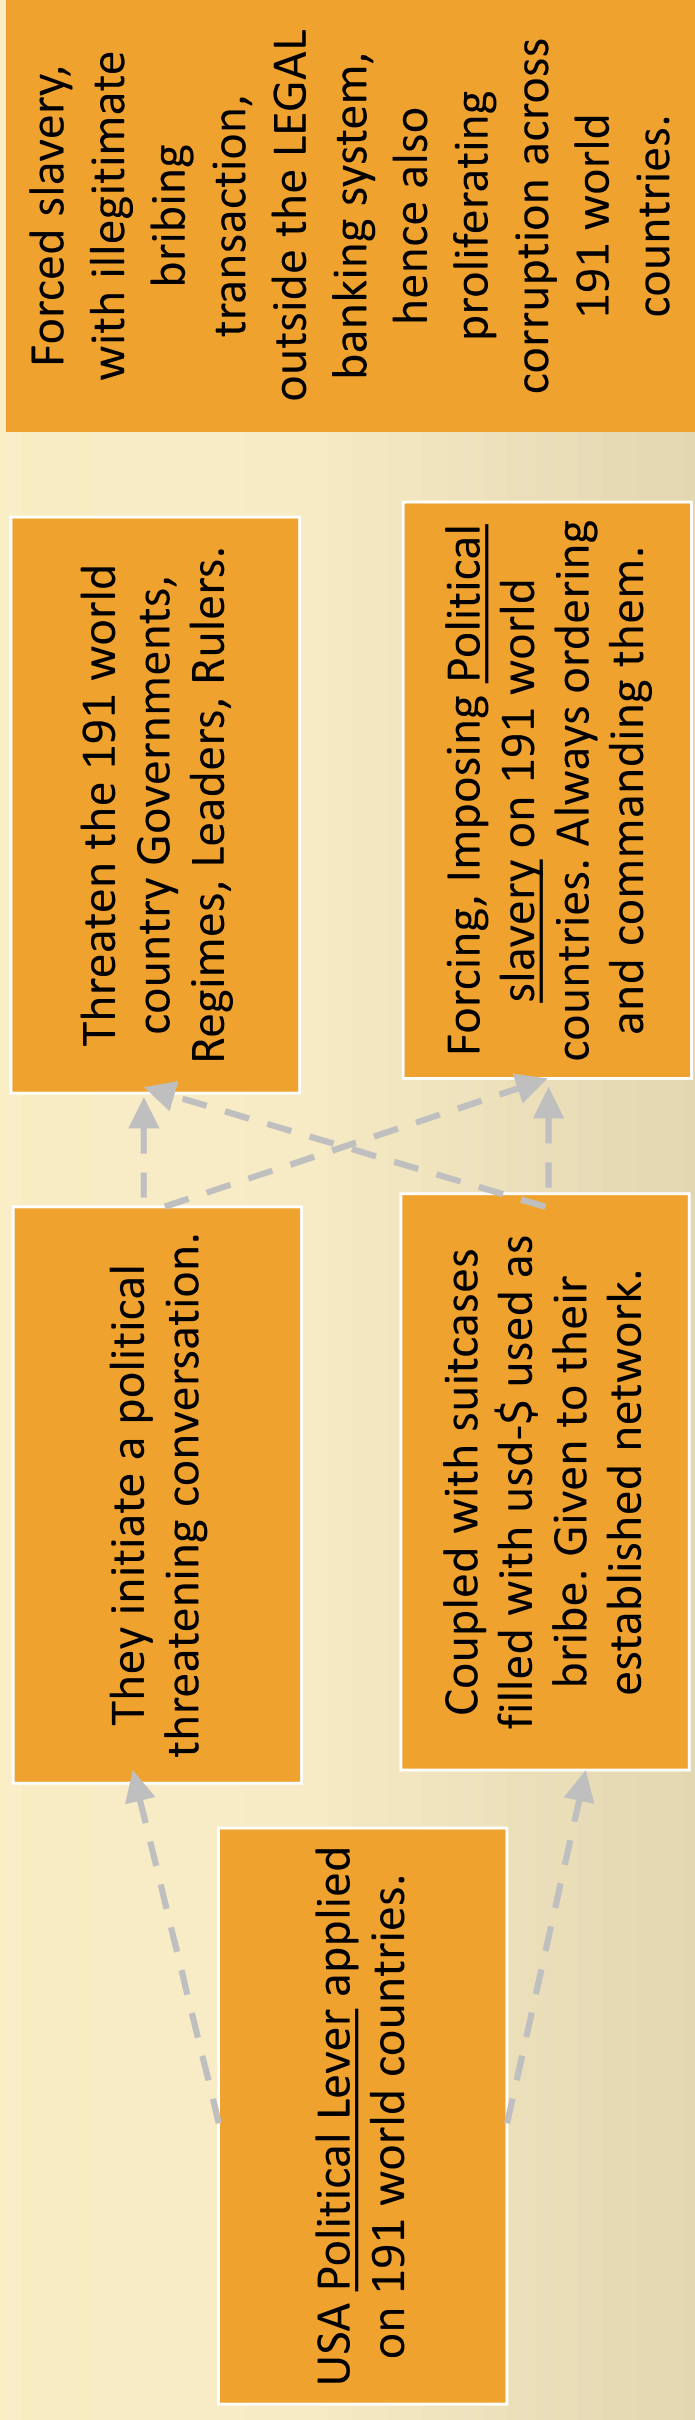

The unlimited printing of usd-\$ resulted in usa losing all respect for human beings, and world countries, resulting in building rouge arrogant goals / objectives. They wanted to identify targets from across the world countries and get them to usa for all menial jobs and to be slaves. They used the all local law breaking, privacy invading, Nixon technology and proliferated it across the world countries.

This was imposing External cage on the 191 world countries, to identify target subjects for all forms of slavery work. Now with Nixon technology feed coming from all the world countries, more suitcases of bribes were rolled out to the 191 world countries, to identify and create target subjects whose lives would be destroyed, by putting people across the world in LIFE CAGES. This included murdering targets family members to prepare them for importing into slavery jobs. Further in Life cages, they apply divisive, destructive, destroying, and diabolical tactics to create target subjects for slavery. In this effort, they have used their financed christian hospitals, to murder people, and use their financed christian schools to identify target subjects at the earliest possible stage of their life to set them up to be used in their adult life. Usa and rouge world order just watched at Nixon technology foreign country broadcasts 24 by 365.

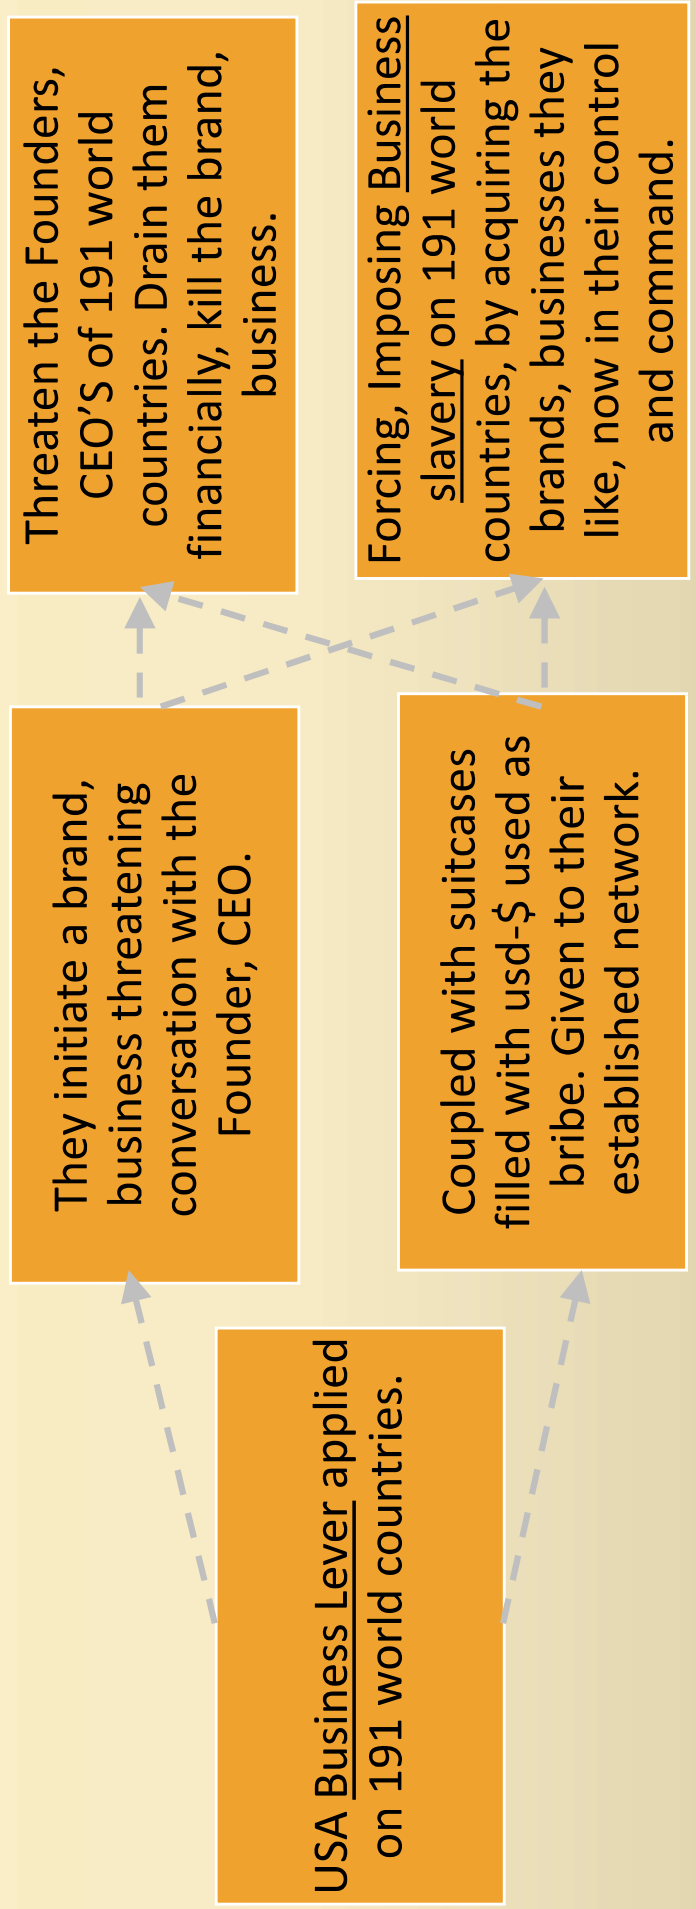

When Project Earthling© goes live, usa must do their own country menial jobs, labor. This forceful creation of labor characters from across the world, by applying Life cages will come to an end. All cages, planet cage, country cage, life cage, internal, and external cages imposed by usa, and the rouge world order will be fully broken, terminated, destroyed, and further liability claimed.

I attach four schematic visuals in the subsequent pages. These are 'ILLUSTRATIONS' of how rouge usa used unlimited printed currency of usd-\$, to ILLEGITIMATELY APPLY POLITICAL LEVER / TRADE LEVER, BUSINESS LEVER, FINANCIAL LEVER, AND ECONOMIC LEVER TO FULLY IMPOSE COMMAND, CONTROL, OPPRESSION, AND SLAVERY ON ALL 191 WORLD COUNTRIES.

POLITICAL LEVER illustration, used by usa in old world order. Using the 'economic flaw', usd-\$ monopoly forced on 191 world countries.

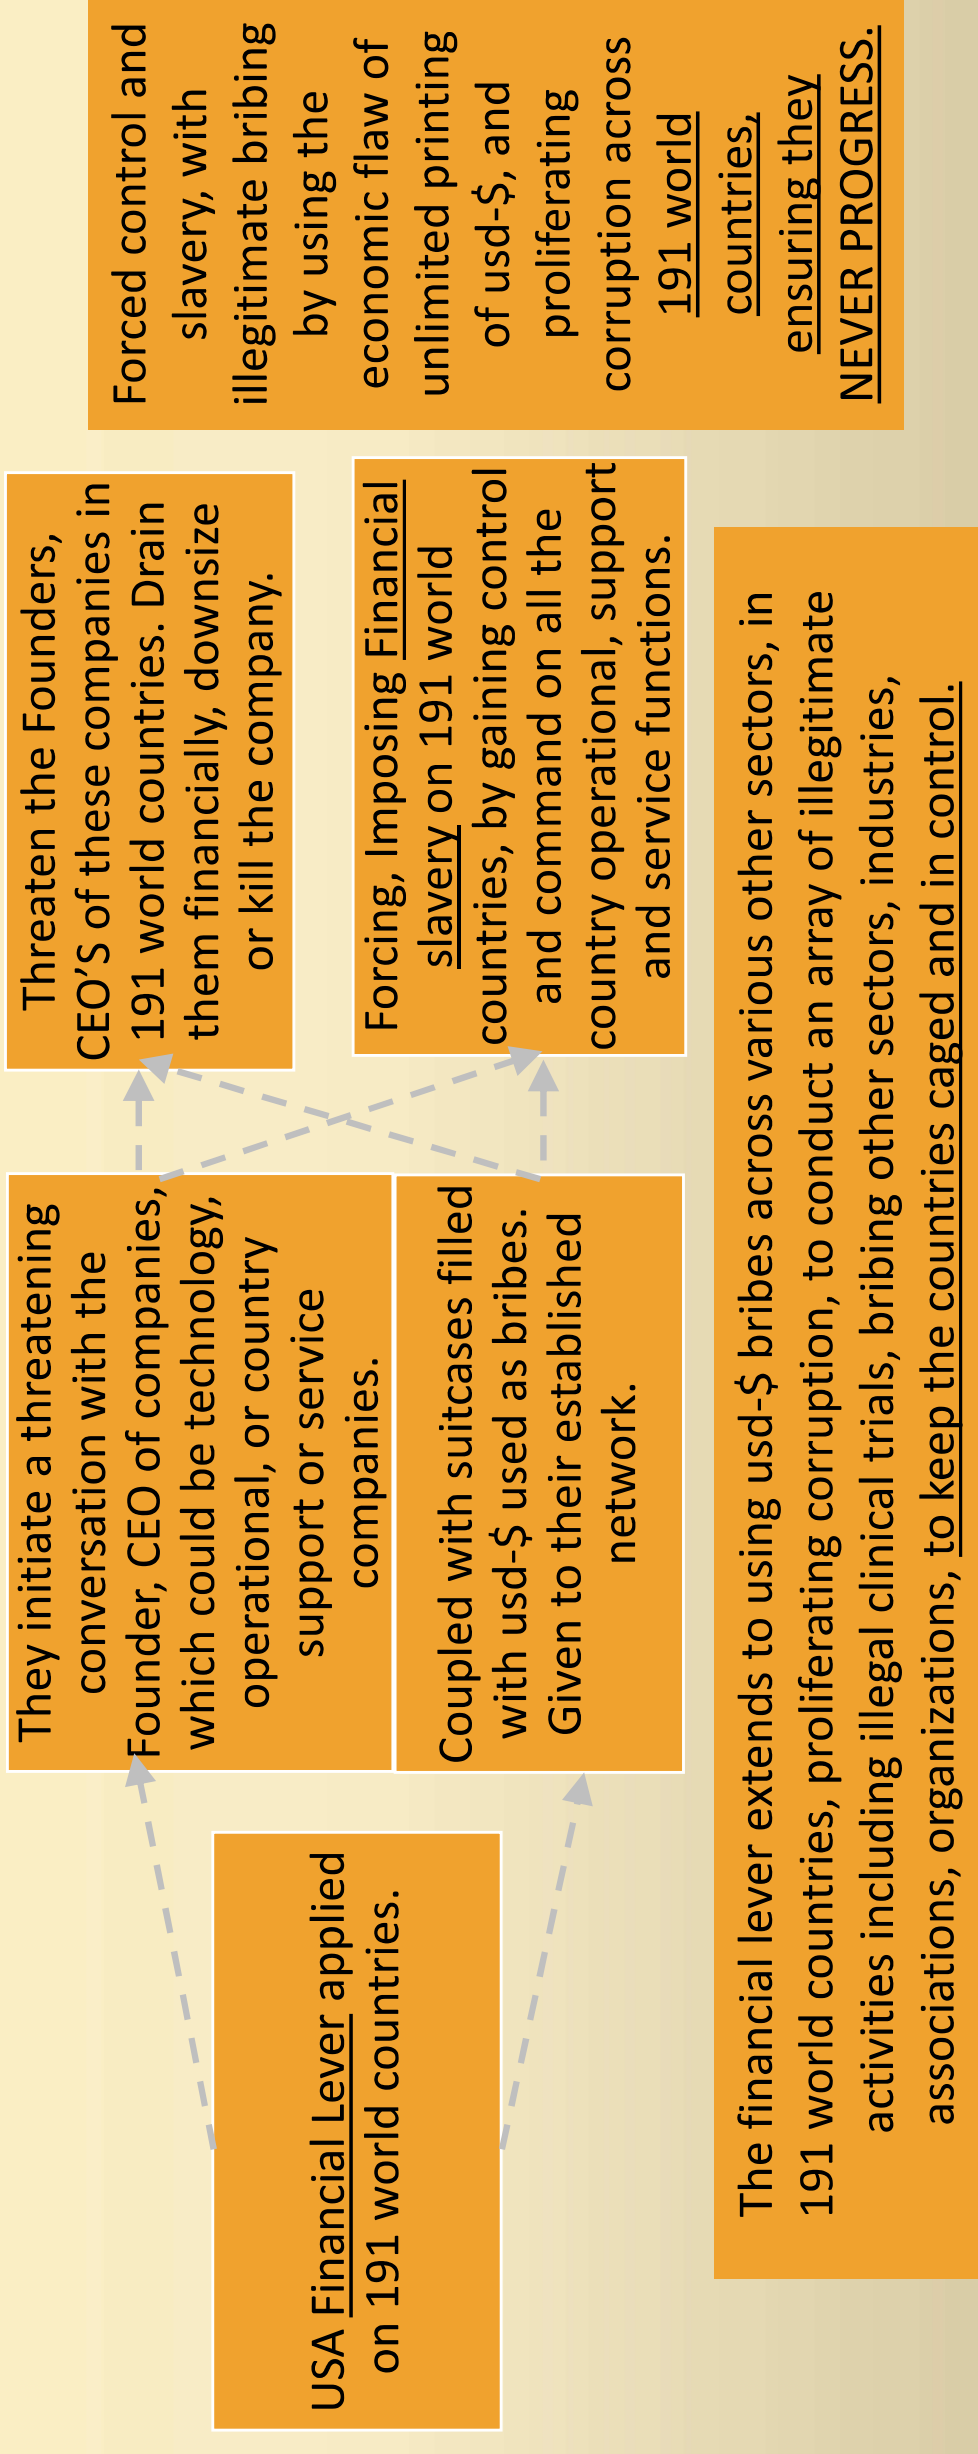

BUSINESS LEVER illustration, used by usa in old world order. Using the 'economic flaw', usd-\$ monopoly forced on 191 world countries.

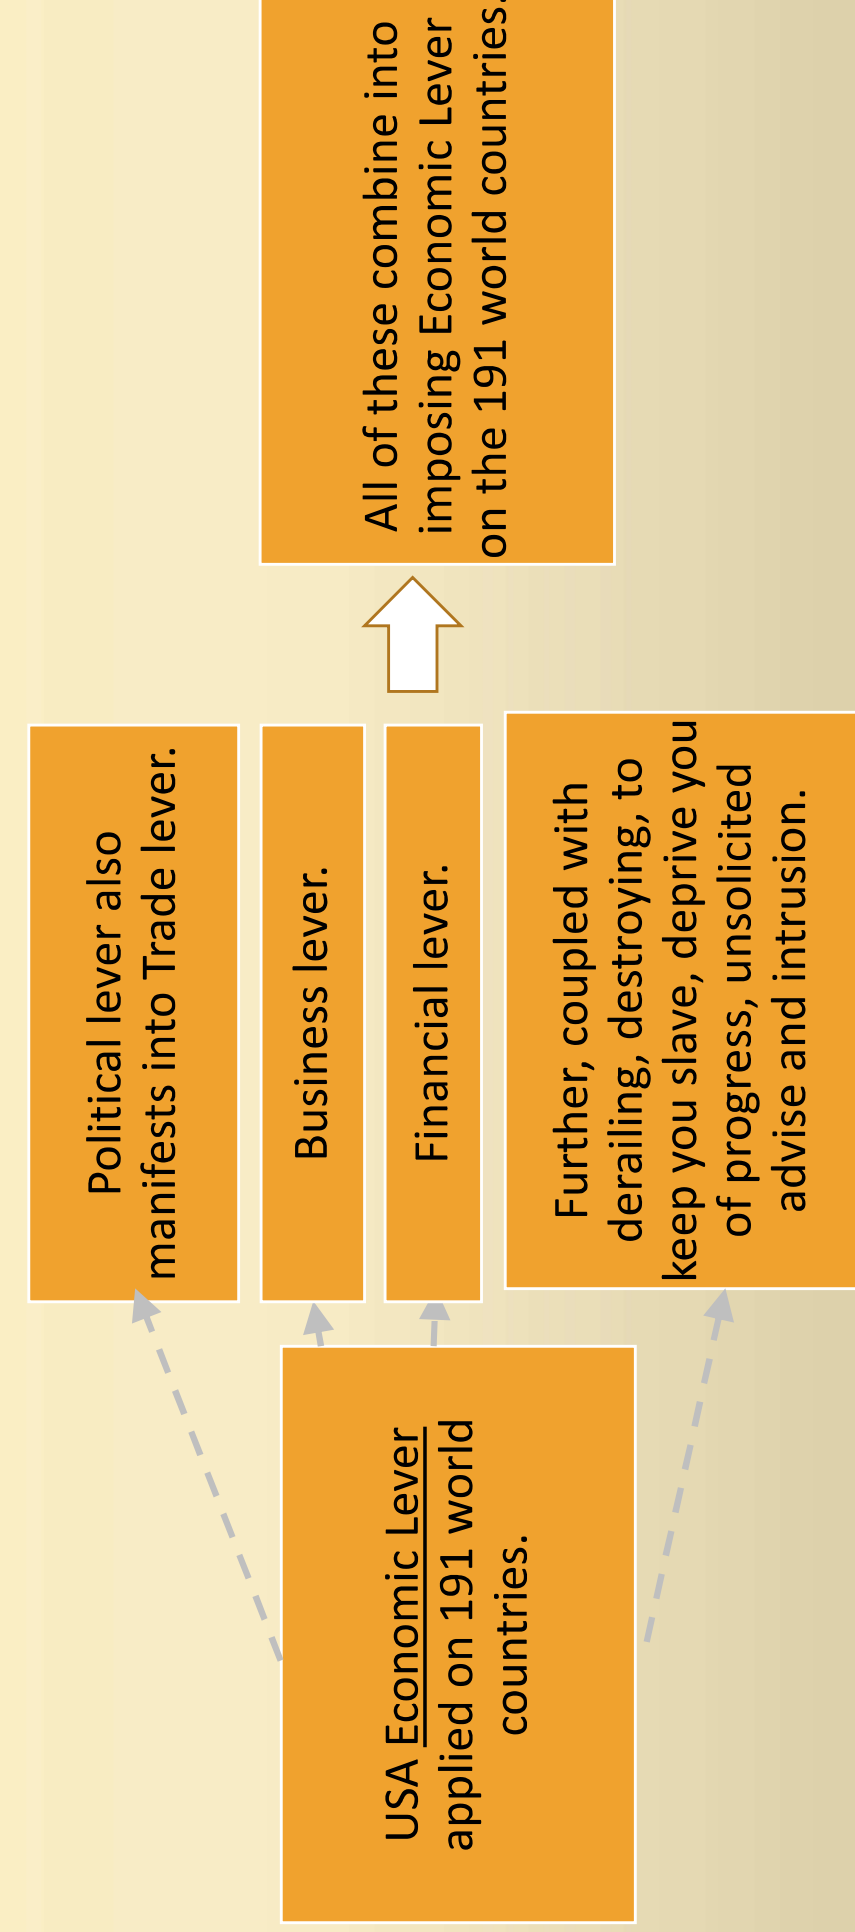

Forced business slavery, with illegitimate bribing transaction, outside the LEGAL banking system, hence also proliferating corruption across 191 world countries.

FINANCIAL LEVER illustration, used by usa in old world order. Using the 'economic flaw', usd-\$ monopoly forced on 191 world countries.

ECONOMIC LEVER illustration, used by usa in old world order. Using the 'economic flaw', usd-\$ monopoly forced on 191 world countries. This combination of levers into ECONOMIC LEVER ensures no progress, economic growth, development work, GDP growth ever happens in 191 world countries.

Usa in the old world order, imposed the combination of all these levers, to culminate into ECONOMIC LEVER, forced and imposed on 191 world countries. This is a death like grip, in which the countries are CAGED permanently.

Usa, designs negative rouge tactics to achieve the above, by intentionally pitting men of all 191 world countries against them to methodically kill them, for organ harvesting.

With the 'economic flaw, unlimited printing of usd-\$, and the bribing network established', terminating world country opposition by world war II, and creating a puppet united nations, they thought the men from the 191 world countries can now be set-up for murder in high volumes. They must incite the men, make them angry, draw them into battle, harass them, to kill them. This was a multi-objective initiative.

Heart harvesting is the primary goal. Wherein hearts of men from across 191 world countries were to be received by men, and women of usa, and uk. This was going to get rid of men, and create women for the slavery objective like defined above. For this objective, men were to be attacked in a multitude of ways to draw them into a fight which would be preset for murder by counter molecules.

They have created so many non-existing diseases on planet earth, primarily to kill men from 191 world countries. And men were attacked, drawn into a fight by using a variety of incitation subjects, not limiting to inciting fights by religion, height, weight, skin color, hair style, bone strength / punch strength, kicking them under the belt, penis sizes, performance, fitness, or other.

With so many counter molecules, to induce all forms of diseases, weakening organs, ability to manipulate, target, alter every cell in a human body, all the men drawn into fights, battles were to be medically weakened and murdered. They have the full technology to keep the organs they want to harvest in prime condition, while killing the target men from 191 world countries, timing for the organ export.

With Project Earthling© going live, all men from across the world can now show usa their place, where they belong, as their bribing tactic, established bribe taking network, economic flaw, and this organ harvesting psychotic second life objective by murder will be fully destroyed, and terminated. Men from across the 191 world countries must live their full lives, going well into their nineties, and only then will they be in the position of protecting their country, their citizens, their women, and children. No one from usa, can attack your citizens, exploit your country, attack your women, or attempt murder, for organ harvesting. Men can now truly protect their countries, and citizens after Project Earthling© goes live. Decentralized by country, New world order COUNCILS paid for in world neutral currency Earthlings, all the 191 countries can now be really independent, and prosper.

Usa, put all the 191 world country citizens into life cages, a combination of External cage and Internal cage.

Usa, and the old world order, used advanced technologies at 191 world countries to beat them. How can you identify hidden network of micro, nano, electronic gadgets that will intrude into your private life forming the External cage. The 191 world countries are not technologically capable to deal with this, identify, trace Nixon technology, and dismantle it. They thrived on beating the world by technology.

The pharmaceutical advances are the new threat for humanity, with designed for specific target / torture objective, pre-packaged serum technology poisons that can work inside a human body for extended number of hours, going into days, hence controlling all the human beings organs, including brain, resulting in controlling human beings life, and activities, by dispensed poison in food, imposing the Internal cage.

The combination of these cages fully controlling and manipulating human beings lives forming 'Life cage'. This has been the menace, inexplicable torture to humanity in the second half of 20th century. All the 191 world country citizens, and families were targets of this 'Life cage' forced onto them. Most of these countries were unaware, illiterate about the existence and the capabilities of such technologies.

How were they to counter this in the old world order? They could not. With Project Earthling© going live, the New world order COUNCILS will also go live, which include the 'TRANSFORMATIONAL, INTERNATIONAL LAW AND MEDICAL LAW PROTECTING' Judicial Council, World court at Judicial Council, and the Medical Council. They will be supported by Special Technology Unit, STUN in enforcing law.

While STUN will be the division supporting the world countries from India, there are a few other countries in the world, from the 191 world countries, that have or will build such technical capability in quick time. These few countries will support the 191 world countries, with all the technological knowhow, capability, to trace, dismantle, report, and destroy external, internal, life cages, and country cages of 191 countries. STUN along with the respective similar technology divisions of the few other competent countries, will

PROJECT EARTHLING©. Decentralized we prosper.
World Independence Day.

ensure training programs are offered to all the world countries, to build awareness and competence in these technologies, to start to become more self-reliant in dealing with such cages.

Usa, has used the entire old world order with a secret mission to terminate HINDUISM religion. They have made it their singular most important mission over the last century.

There was no christianity in India. It was incubated by uk, usa, by financing christian missionaries using the UNLIMITED PRINTING of usd-\$ and paying for conversions. Over the last century, including all the usa government, usa corporations, combined usa has unleashed unimaginable number of attacks on the religion of HINDUISM, and HINDUS living in India.

They were determined to harvest the organs of Hindus living in India, including 'Heart harvesting' and get second lives. Their objective is to terminate the religion of Hinduism, use them for getting second lives, and further use them for all forms of slavery. This is one of the core reasons they have attacked me for the last 16 years, given that I would bring the wealth to India, the home for religion of Hinduism.

They have continuously financed anti-India activities, anti-Hinduism activities by continuously sponsoring christians, muslims, and other minority religions in India, to work in the direction of murdering Hindus living in India, and terminating the religion of Hinduism, out of racism, hatred, and jealousy. The UNLIMITED PRINTING of usd-\$ is fueling, financing all this illegitimate work in India.

MACRO ECONOMIC REFORM PROJECT EARTHLING©, ENDS ALL THE ABOVE AND DELIVERS LASTING FREEDOM AND TRUE INDEPENDENCE TO 191 WORLD COUNTRIES.

With the World neutral currency EARTHLINGS introduced, formation of GEC, Global Earthling Council, and the registration of ITB Banks, International Trade and Business Banks in all the 193 world countries, we transition into a LEGITIMATE WORLD, WHICH CONDUCTS INTERNATIONAL BUSINESS AND TRADE IN EARTHLINGS, THROUGH ITB BANKS. This ends all illegitimate transactions sponsored by usa.

I attach the following schematic visuals in subsequent pages. A visual illustrating the legitimate business and trade transactions to be conducted through ITB Banks that will put an END TO ALL THE ILLEGITIMATELY APPLIED LEVERS. Another visual illustrating all forms of Equality delivered by the reform, including Economic, business, trade, opportunities, racial, and regional equality.

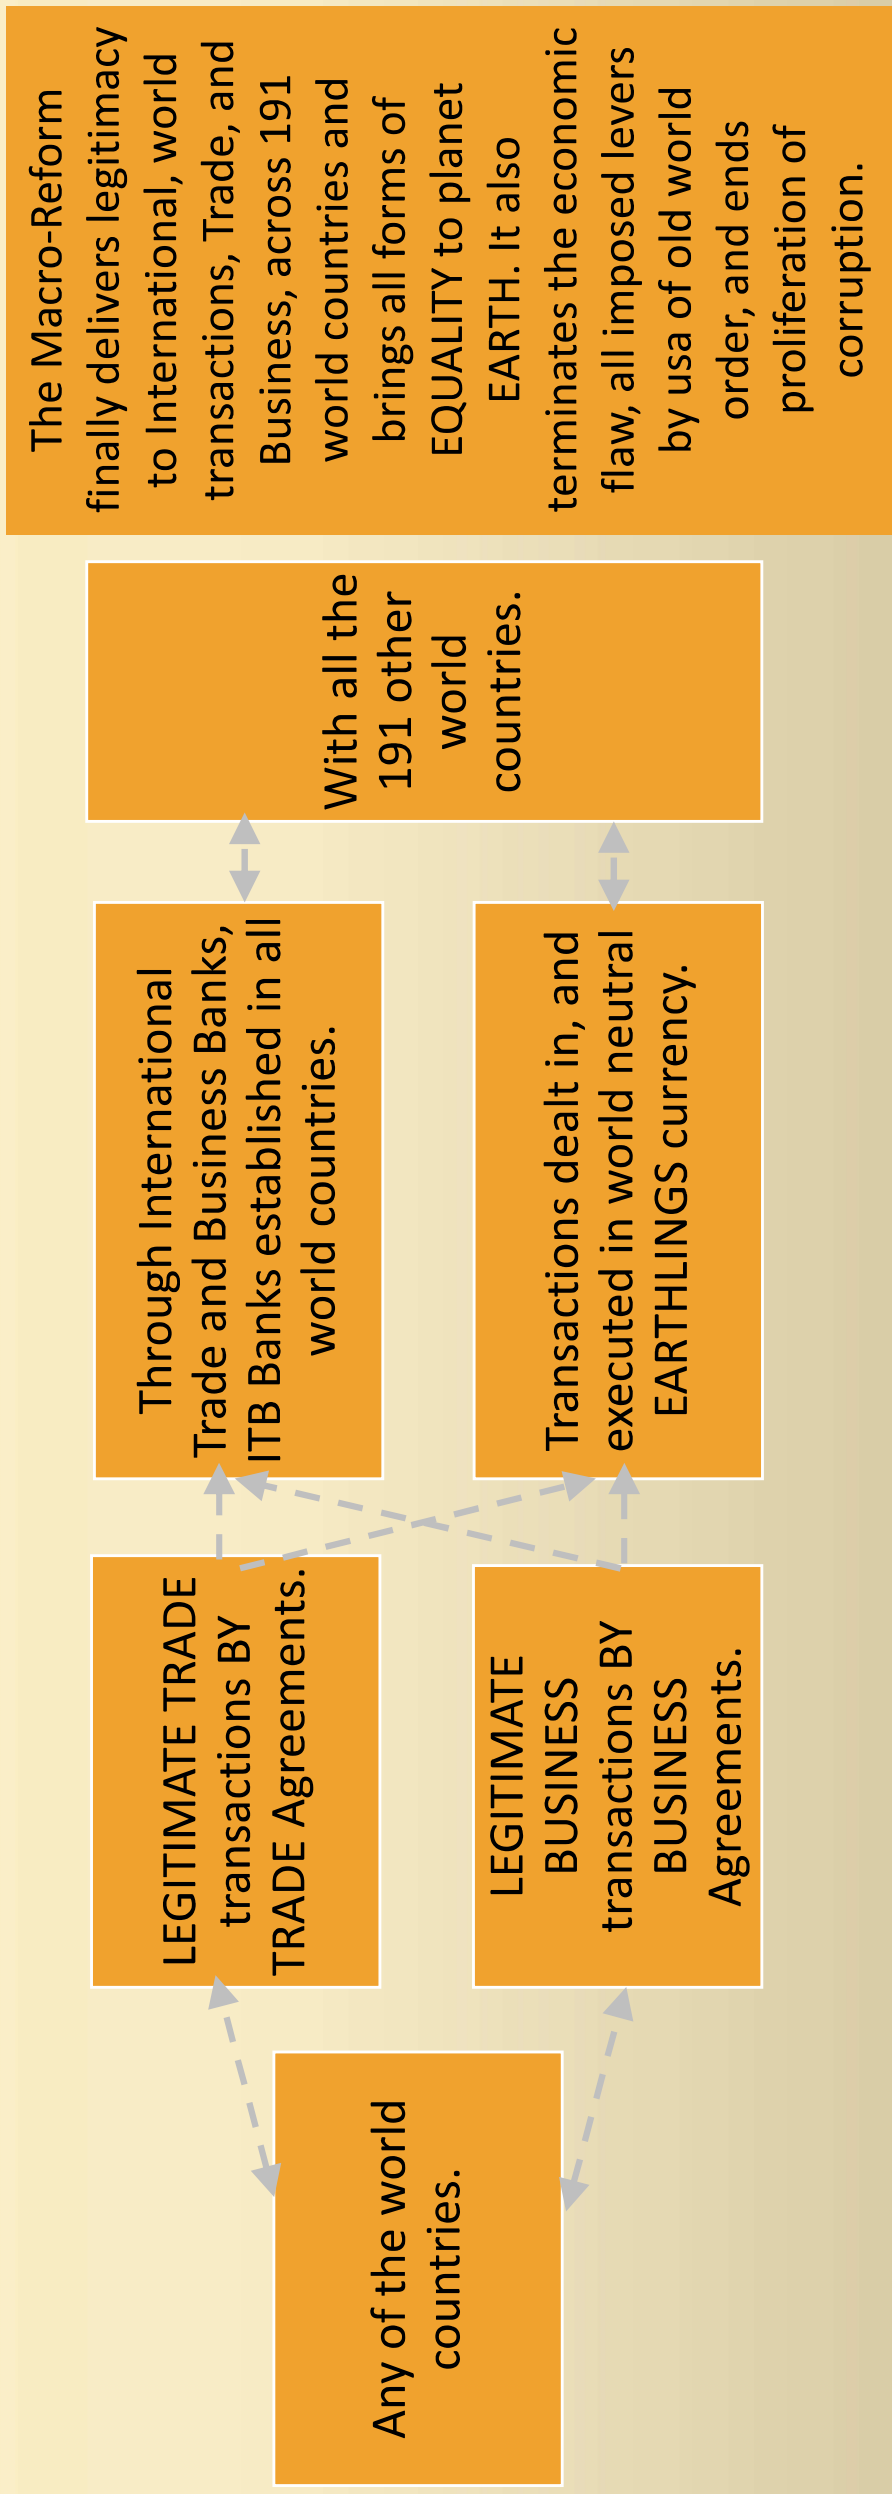

Another visual illustrating the termination of all forms of slavery, discrimination, exploitation, and extortion illegitimately forced on world countries by usa. Judicial council, and Medical council will protect the international law and world medical law, hence banning even the dangerous 'Pharmaceutical anesthetic slavery' created by my public enemies.

By using the dangerous, and diabolical serum technology to deliver 'anesthetic sleep' by way of which any man could be raped, his semen / sperm extracted, any women could be raped, all of this without the knowledge to the victim, the very existence of humanity, existence of any functioning society was threatened. The Macro Economic reform terminates even this, and brings the World Independence Day.

MACRO ECONOMICS DEFINITION.

Macro Economics did not exist in old world order, and it will come alive, after Project Earthling© goes live, by taking world neutral currency Earthlings live.

MACRO-ECONOMIC REFORM eliminates the 'economic flaw', usd-\$ monopoly, and TRANSITIONS the world into dealing in LEGITIMATE transactions in world neutral currency EARTHINGS. End of all LEVERS, including ECONOMIC LEVER, and imposed slavery on 191 world countries.

MACRO-ECONOMIC REFORM delivers EQUALITY to all the 191 world countries, and TRANSITIONS the world into NEW WORLD ORDER. The reform decentralizes the world by country, and results in an absolutely EQUAL world with 191 EQUAL countries habiting the Planet Earth.
